ACKNOWLEDGEMENTS

I would like, at the outset, to record my deep sense of gratitude to Dr. K. S. Murty, Head, Division of Physiology, Central Rice Research Institute, Cuttack, for his suggestion of this problem and his valuable guidance and unflinching help during the course of the investigation and preparation of the thesis.

To Dr. S. Y. Padmanabhan, Director, Central Rice Research Institute, Cuttack, I owe a great deal for having awarded me a Research Studentship and for having evinced a keen interest in the work by offering the fillip and encouragement when they were most needed.

My thanks are also due to Dr. S. K. Sinha, Senior Physiologist, Water Technology Centre, Indian Agricultural Research Institute, for having provided the facilities for the analysis of RuDP carboxylase in his laboratory and to Dr. R. Sridhar, Pool Officer, Central Rice Research Institute, Cuttack for his help in the manometric studies.

I am indebted to all my colleagues in the Division of Physiology, Central Rice Research Institute, Cuttack, especially, Dr. G. Sahu, Assistant Physiologist, whose manifold assistance helped in the timely completion of the dissertation, and Shri G. Ramakrishnayya, Senior Research Assistant.
To my parents, Mrs. and late Rev. C. Rajaratnam to whom I dedicate this work, I submit my respectful thanks for having instilled in me the desire for the pursuit of this study. I shall be amiss, if I fail to express my indebtedness to my brothers, Mr. Babu C. Roy and Mr. Premakumar P. Roy, whose advice and help at moments of despair and depression went a long way in the successful completion of the work. I am also thankful to my wife, Daphne, and daughters, Grace and Joy, who subscribed their mite towards the fruition of this thesis by sacrificing, many a moment, their due comfort, pleasure, and play.

I am thankful to the Department of Agriculture, Government of Tamilnadu for having accorded me the necessary leave facilities, and, to the Department of Atomic Energy, Government of India, for having awarded me a Senior Research Fellowship during the period 1971 to 1974.

I am immensely indebted to Shri A.K. Ghosh, Junior Statistician, Shri K. Sahu, Statistical Assistant and Shri M. Madan Dash, Computer, for their assistance in the statistical analysis of the data and to Shri M. Narayan, Senior Artist and Photographer, Central Rice Research Institute, for his help in the photography of the figures.

Lastly, the assiduous help rendered in field observations by Shri Mayadhar Jena and Shri Khirod Das, Literate Assistants, is gratefully acknowledged.

(R. STEPHEN V. RAJ)
