List of Tables

Table 1.1. Details of the sampling stations and sample size of the species *Sthenoteuthis oualaniensis* along the South west coast of India. M-medium form, D-dwarf form................................. 15

Table 2.1. Sample size, Data range, Mean and SD of different parameters collected on *Sthenoteuthis oualaniensis* during the study.............................. 26

Table 2.2. Inter population Length Weight relationship of Dwarf and Medium forms of *Sthenoteuthis oualaniensis* in the south west coast of India. .......... 29

Table 2.3. Inter population Morphometric relationship of Dwarf and Medium forms of *Sthenoteuthis oualaniensis* in the south west coast of India. .......... 33

Table 2.4. Sexual dimorphic relationship of Dwarf forms of *Sthenoteuthis oualaniensis* in the south west coast of India. ................................... 41

Table 2.5. Sexual dimorphic relationship of Medium forms of *Sthenoteuthis oualaniensis* in the south west coast of India. .................................. 41

Table 3.1. Growth parameters estimated for *Sthenoteuthis oualaniensis* of south west coast of India by various methods ........................................ 60

Table 3.2. Mortality parameters estimated for *Sthenoteuthis oualaniensis* of south west coast of India by various methods .................................. 66

Table 4.1. Sex Ratio medium and dwarf form in percentage with the Chi test value ................................................................. 91

Table 4.2. Length wise distribution of different maturity stages of Medium form .................. 93

Table 4.3. Length wise distribution of different maturity stages of Dwarf form............... 94

Table 4.4. Month wise distribution of different maturity stages of medium form........... 97

Table 4.5. Month wise distribution of different maturity stages of dwarf form............. 98

Table 4.6. Summary of Maturity Indices for the Medium Female form................. 100

Table 4.7. Summary of Maturity Indices for the Dwarf form................................. 103

Table 4.8. Month wise maturity indices for medium form .................................. 105

Table 4.9. Month wise maturity indices for Dwarf form ...................................... 108

Table 4.10. Length wise details of the medium form fecundity............................. 112

Table 4.11. Length wise details of the dwarf form fecundity ................................ 112

Table 5.1. Month wise percentage of stomach fullness in the *Sthenoteuthis oualaniensis*.......................... 135
Table 5.2. Prey–species composition of Sthenoteuthis oualaniensis Medium and Dwarf form ................................................................. 137
Table 5.3. Prey preference of different size groups of Sthenoteuthis oualaniensis medium form ............................................................... 141
Table 5.4. Prey preference of different size groups of Sthenoteuthis oualaniensis dwarf form ................................................................. 144
Table 6.1. Proximate composition (in percentage) of Sthenoteuthis oualaniensis mantle tissue in comparison to the co-occurring Oceanic squids.............. 161
Table 6.2. Fatty acid composition (mg/100g) of Sthenoteuthis oualaniensis mantle tissue in comparison to the co-occurring Oceanic squids............... 163
Table 6.3. Amino acid composition (in mg/g) of Sthenoteuthis oualaniensis mantle tissue in comparison with the co-existing Oceanic squids. .......... 166
List of Figures

Figure 1.1. Map of the South west coast of India showing the oceanic squid sampling area during the study period. .............................................................. 16
Figure 1.2. Squid jigging in action ................................................................. 17
Figure 2.1. Comparison of the relationship between the dorsal mantle length (DML) and total weight (TWt) of Medium and Dwarf form. ......................... 29
Figure 2.2. Comparison of the relationship between the dorsal mantle length and total weight of the females of Medium and Dwarf form. ...................... 30
Figure 2.3. Comparison of the relationship between the dorsal mantle length (DML) and total weight (TWt) of the males of Medium and Dwarf form. ... 30
Figure 2.4. Comparison of the relationship between the dorsal mantle length (DML) and mantle weight (MWt) of Medium and Dwarf form. .................... 31
Figure 2.5. Comparison of the relationship between the dorsal mantle length and mantle weight of the females of Medium and Dwarf form. .................. 32
Figure 2.6. Comparison of the relationship between the dorsal mantle length (DML) and mantle weight (MWt) of the males of Medium and Dwarf form. .... 32
Figure 2.7. Comparison of the relationship between the dorsal mantle length (DML) and tentacle length (TL) of Medium and Dwarf form. ..................... 34
Figure 2.8. Comparison of the relationship between the dorsal mantle length (DML) and tentacular club length (TCL) of Medium and Dwarf form. .............. 35
Figure 2.9. Comparison of the female Sthenoteuthis oualaniensis, fin shape between (a) Medium and (b) Dwarf form. .................................................... 35
Figure 2.10. Comparison of the relationship between the dorsal mantle length (DML) and fin width (FW) of Medium and Dwarf form. ......................... 36
Figure 2.11. Comparison of the relationship between the dorsal mantle length (DML) and mantle width (MW) of Medium and Dwarf form. ................. 37
Figure 2.12. Comparison of the relationship between the dorsal mantle length (DML) and head width (HW) of Medium and Dwarf form. ....................... 37
Figure 2.13. Comparison of the relationship between the dorsal mantle length (DML) and Arms length (AL 1-4) of dwarf form. .................................... 38
Figure 2.14. Comparison of the relationship between the dorsal mantle length (DML) and Arms length (AL 1-4) of medium form. .............................. 38
Figure 2.15. Comparison of the relationship between the Total weight (Twt) and Mantle weight (Mwt) of dwarf and medium form. .................................. 39
Figure 2.16. Sex wise length frequency chart of the medium form. .................... 39
Figure 2.17. Sex wise length frequency chart of the dwarf form .......................... 40
Figure 3.1: Powell–Wetherall Plot for Sthenoteuthis oualaniensis (a) dwarf form and (b) Medium form. ................................................................. 61
Figure 3.2. von Bertalanfy growth curve for S oualanienesis dwarf form with superimposed histograms. .................................................... 62
Figure 3.3. Fabens growth curve for S oualanienesis dwarf form ......................... 63
Figure 3.4. von Bertalanfy growth curve for S oualanienesis medium form with superimposed histograms. The red and white bars are positive and negative deviations from the weighed model classes representing pseudo-cohorts. ......................... 64
Figure 3.5. Fabens growth curve for S oualanienesis medium form ................. 65
Figure 3.6. Length based Jones and van Zalinga plot of Sthenoteuthis oualaniensis dwarf form for estimating total mortality............................. 66
Figure 3.7. Length converted catch curve of Sthenoteuthis oualaniensis medium form ................................................................. 67
Figure 3.8. Length based Jones and van Zalinga plot of Sthenoteuthis oualaniensis medium form for estimating total mortality......................... 68
Figure 4.1. Monthly sex ratio for the medium and dwarf form of Sthenoteuthis oualaniensis ................................................................. 92
Figure 4.2. Percentage of medium mature male and female for each mantle length class ................................................................. 95
Figure 4.3. Percentage of dwarf mature male and female for each mantle length class .................................................................................. 95
Figure 4.4. Maturity indices for Medium female and male reproductive organs. ....... 101
Figure 4.5. Relationship between DML and RSWI of Medium female. ............. 101
Figure 4.6. Relationship between DML and RSWI of dwarf female. ................. 103
Figure 4.7. Maturity indices for Dwarf female and male reproductive organs. .... 104
Figure 4.8. Monthly variation in the maturity indices of Medium female and male indicating the SD at each point. ........................................ 106
Figure 4.9. Monthly variation in the maturity indices of Dwarf female and male indicating the SD at each point ........................................ 109
Figure 4.10. Relationship between mantle length and fecundity. (a) to (c) medium form and (d) to (f) dwarf form. ................................................ 111
Figure 5.1. Month wise percentage of stomach fullness in the S. oualaniensis. (a) dwarf form (b) medium form ........................................ 136
Figure 5.2. Percentage occurrence of the different prey groups in the diet of the S. oualaniensis. medium form. ........................................ 138
Figure 5.3. Percentage occurrence of the different prey groups in the diet of the S. oualaniensis. dwarf form. ........................................ 139
Figure 5.4. Percentage of relative importance of the different prey groups in the diet of the different size groups of *S. oualaniensis* medium form.................. 142

Figure 5.5. Percentage of relative importance of the different prey groups in the diet of the different size groups of *S. oualaniensis* dwarf form. ............... 145

Figure 6.1. Saturated and Unsaturated Fatty acid composition of *Sthenoteuthis oualaniensis* mantle tissue in comparison to the co-occurring Oceanic squids. .................................................................................................. 164

Figure 6.2. Essential and Non essential Amino acid composition of *Sthenoteuthis oualaniensis* mantle tissue in comparison with the co-existing Oceanic squids. .................................................................................................. 167
## List of Plates

| Plate 1.1. | *Sthenoteuthis oualaniensis* female (a) Dorsal view (b) Ventral view | 9 |
| Plate 1.2. | *Sthenoteuthis oualaniensis* female (Various parts) | 10 |
| Plate 1.3. | *Sthenoteuthis oualaniensis* female (Gladius and Beak) | 11 |
| Plate 2.1. | Dorsal view of *Sthenoteuthis oualaniensis*. (a) Medium form, (b) Dwarf form, (c) Tentacular club of Medium form, (d) Tentacular club of Dwarf form | 25 |
| Plate 4.1. | Female *Sthenoteuthis oualaniensis*, indicating various maturity stages and reproductive system | 84 |
| Plate 4.2. | Female *Sthenoteuthis oualaniensis*, indicating various maturity stages and reproductive system | 85 |
| Plate 4.3. | A comparison of the Various components of the *Sthenoteuthis oualaniensis* reproductive system between medium and dwarf form | 86 |
| Plate 4.4. | Various components of the *Sthenoteuthis oualaniensis* reproductive system | 87 |
| Plate 5.1. | Stomach and its various food constituents. (a) Stomach inside the mantle cavity, (b) Stomach, (c) to (f) Microphotograph depicting various food components | 133 |
