ACKNOWLEDGEMENTS

- To my supervisor, Prof. A.K. Varma for his valuable guidance, constructive criticism, constant encouragement and moral sustenance during the course of this work.

- To Deans, School of Life Sciences, J.N.U. Prof. M. Habibulla, Prof. P. Mohanty, Prof. G.S. Singhal and Prof. Asis Datta for providing essential facilities to carry out this investigation.

- To Prof. Anjali Mookerjee and Prof. H.K. Das for allowing me to use some of their instruments.

- To Dr. Nirupan Chowdhry who helped me with the TEM.

- To my lab colleagues Jaishree madam, Neerajji, Ajay, Gopal and Ravindra for their encouragement and friendly cooperation which created a conducive atmosphere for research throughout my stay.

- To Bala, with whom discussions always ended with meaningful inferences.

- To Saxena whose helping gesture and jovial nature shall always be remembered.

- To Alex, Ahmed and Khan for technical assistance during my experimental work in C.I.F.

- To Shashi, Rajpal, Simmi, and Dev Raj for their laboratory assistance.

- To Gajanan and Co. at Hegde Computer Cell for their cooperation and expedite typing.

- To a number of friends who helped me in one way or the other.

- To C.S.I.R. for financial assistance.

- To Sudhakar for everything. It is difficult to name and express innumerable ways he stood by me.

- To my parents and brother, without whom I would have been incomplete and nothing worthwhile.
