ACKNOWLEDGEMENTS

I would like to express my deep sense of gratitude and indebtedness to Dr. Y. Venkatarami Reddy, Vice-chancellor, JNT University, Hyderabad and Dr. N. Kumaraswamy, Professor, KSRM College of Engg., Kadapa under whose guidance this thesis work had been carried out. Mere words would not be sufficient to place on record the erudite guidance, sustained encouragement, constructive comments and inspiring discussions with them during the course of this work. I consider myself to be fortunate to have worked under them. They in fact have been the source of inspiration for this work. It has been a privilege and pleasure working under their guidance and it has been an experience, which I shall cherish for a longtime.

I would like to thank our beloved Head of the department Dr. K. Satyaprasad, Professor of Electronics and Communications, JNTU College of Engineering, Anantapur, for his constant encouragement, help and timely suggestions.

I would like to thank Dr. K. Soundararajan, Professor of ECE department for his kind affection, constant encouragement and timely suggestions.

I would like to thank our beloved principal Dr. P. Dhananjaya Rao for according the necessary permission to carry out my thesis.

I would like to express my heart felt gratitude to Dr. M. Ramasubba Reddy, Associate Professor, I.I.T., Chennai and Dr. B. Stephen Charles, Principal, St. John’s college of Engineering,
Yemmiganur for sparing their valuable time and giving me inspiring suggestions at all stages of my thesis with out which this thesis would not have taken this shape.

I would like to express my heartfelt thanks to my colleagues in Academic section Dr. K. Vijayakumar Reddy, Associate Professor, Mech. Engg. dept., Mr. B. Deankumar, Assistant Professor, Civil Engg. Dept., and Dr. M. Vijayakumar, Associate Professor, EEE dept., for their constant encouragement and timely suggestions.

I would like to express my special thanks to Prof. V. Madhusudhan, Prof. T. Jayachandraprasad, and Prof. P.V.S. Muralikrishna of KSRM College of Engg., Kadapa for their affection and encouragement.

I would like to convey my heartfelt thanks to my brother Sri. M.N. Sivasankar and my sister-in-law Smt. H. Leela without whose constant encouragement and kind affection I would not have reached this level in my life.

My warmest thanks goes to my wife Lakshmi, daughter Saipriya and son Saikrishna for their patience and support during this work.

I would like to thank my Lord Shirdi Sai for giving me wisdom and strength to complete this thesis work.

Finally, I would like to thank one and all who have directly or indirectly contributed for the successful completion of my thesis.
“Keep your heart with all diligence,  
For out of it spring the issues of life.”

DEDICATED TO MY BELOVED  
PARENTS
