TABLE OF CONTENTS

LIST OF TABLES

LIST OF FIGURES

CHAPTER I

I. INTRODUCTION

I.1 Statement of the Problem
I.2 Geographical Personality of the Area
   I.2.i. The Physical Environment
   I.2.ii. The Economy
   I.2.iii. The People
I.3 Review of Literature
I.4 Objectives of the Study
I.5 Database and Methodology
I.6 Organisation of the Study

CHAPTER II

II. AGRO-ECOLOGICAL PARAMETERS AND REGIONS

II.1 Introduction
II.2 Structure and Geology
II.3 Relief and Drainage
II.4 Physiographic Divisions
II.5 Climate
   II.5.i. Temperature and Seasons
   II.5.ii. Rainfall
II.6 Soils
II.7 Natural Vegetation
II.8 Water Availability
II.9 Land Capability Class
II.10 Agro-Ecological Regionalisation

CHAPTER III

III. LANDUSE AND CROPPING PATTERN OF AGRO-ECOLOGICAL REGIONS
III.1 Landuse of Agro-Ecological Regions

III.1.i Introduction

III.1.ii Landuse in 'Intensively Irrigated Paddy Region of the Valley Floor'

III.1.iii Landuse in 'Upland Karewa Region of Specialised Horticulture and Saffron Cultivation'

III.1.iv Landuse in 'Hill Slopes with Unirrigated Agriculture'

III.1.v Landuse in 'Pasture and Meadow Realm of Transhumance'

III.1.vi Landuse in 'Reclaimed Swamps and Marshy (Numbal) Region'

III.1.vii Inter-Regional Analysis of Landuse

III.2 Cropping Pattern in Agro-Ecological Regions

III.2.i Introduction

III.2.ii Cropping Pattern in 'Intensively Irrigated Paddy Region of the Valley Floor'

III.2.iii Cropping Pattern in 'Upland Karewa Region of Specialised Horticulture and Saffron Cultivation'

III.2.iv Cropping Pattern in 'Hill Slopes with Unirrigated Agriculture'

III.2.v Cropping Pattern in 'Pasture and Meadow Realm of Transhumance'

III.2.vi Cropping Pattern in 'Reclaimed Swamps and Marshy (Numbal) Region'

III.2.vii Inter-Regional Analysis of Cropping Patterns

III.3 Tolerance Zones of Major Crops grown in the Agro-Ecological Regions

CHAPTER IV

IV. Landuse, Cropping Pattern and Agro-Ecological Correlates

IV.1 Relationship Between Agro-Ecological Parameters

IV.1.i Intensively Irrigated Paddy Region of the Valley Floor

IV.1.ii Upland Karewa Region of Specialised Horticulture and Saffron Cultivation

IV.1.iii Hill Slopes with Unirrigated Agriculture

IV.1.iv Pasture and Meadow Realm of Transhumance

IV.1.v Reclaimed Swamps and Marshy (Numbal) Region

IV.2 Relationship Between Agro-Ecological Parameters and Cropping Patterns
IV. 2. i. Intensively Irrigated Paddy Region of the Valley Floor 220 - 223
IV. 2. ii. Upland Karewa Region of Specialised Horticulture and Saffron Cultivation 223 - 227
IV. 2. iii. Hill Slopes with Unirrigated Agriculture 227 - 229
IV. 2. iv. Pasture and Meadow Realm of Transhumance 230 - 232
IV. 2. v. Reclaimed Swamps and Marshy (Numbal) Region 232 - 235
IV. 3 Relationship Between Agro-Ecological Parameters and Landuse in the Valley of Kashmir 235 - 243
IV. 4 Relationship Between Agro-Ecological Parameters and Cropping Pattern in the Valley of Kashmir 243 - 253
IV. 5 Stepwise Regression Analysis 253 - 265

CHAPTER V

V. SUMMARY AND CONCLUSIONS 266 - 292

APPENDICES 293 - 316

I. Generation of Agro-Ecological Data at Village and Household Levels 293
II. Village Schedule 294 - 298
III. Household Schedule 299 - 303
IV. Meanings of Terms of Landuse Categories 304 - 305
V. Villagewise Landuse and Cropping Pattern Data - 1980-83 306 - 308
VI. Kashmir Valley Agro-Ecological Parameters: Correlation Matrix 309
VII. Household Level Primary Data (Observation 1-300) 310 - 316

BIBLIOGRAPHY 317 - 335
