ACKNOWLEDGEMENTS

The author expresses her heartfelt and sincere thanks to her research supervisor, Dr. K. Venkatesan, M.A., A.I.I.Sc., Ph.D., for his constant encouragement and inspiring guidance, which have been the motive forces in bringing forth this dissertation.

It is a pleasure to thank Professor G. N. Ramachandran and Professor R. Srinivasan for their interest in the investigations. The author wishes to thank Dr. V. S. R. Rao, for the useful discussions she had with him.

The author is indebted to Dr. S. R. Hall with whose collaboration the work reported in Chapter 2 was carried out.

The author's thanks are due to her colleagues in the Centre for their timely help in compiling the thesis.
The cooperation extended by the Staff of the Computer Centres at the Tata Institute of Fundamental Research, Bombay (CDC-3600) and the Centre of Advanced Study in Physics, University of Madras (IBM-1130) is gratefully acknowledged.

Finally, the author's thanks go to her husband, Mr. R. Pattabhi and to her son Master Raguram for their excellent cooperation during the course of this work.

The financial assistance (Junior Research Fellowship) rendered by the University Grants Commission and the Council of Scientific and Industrial Research, India is gratefully acknowledged.
