ACKNOWLEDGEMENTS
ACKNOWLEDGEMENTS

I must start by thanking “ALMIGHTY GOD”, the most merciful; who gave me the required zeal for this endeavour.

During my entire work of the thesis, I was fortunate to have the support of Prof (Dr) M.K.Jindal, Chairperson, Department of Paediatric and Preventive Dentistry, Aligarh Muslim University. I would like to take this opportunity to sincerely thank him.

I would like to thank, Dr.Manoj Kumar Sharma, Associate Professor, Murad nagar for the statistical analysis, help and patience in getting the desired effect in the preparation of the thesis.

Writing an acknowledgement is perhaps one of the most difficult task to do, especially when I find myself at a loss of words to express my gratitude to my family- my parents, my brother and sister for their unconditional love and support. Especial thanks to my father, Prof (Dr) Mohammad Yunus Khan, who had been with me from the inception of the work till the end. His expertise, valuable advice and suggestions helped in giving this work its present form and shape.

Finally, I express my thanks to my patients for their immense co – operation.

(Dr.Saima Yunus Khan)
