LIST OF TABLES AND FIGURES

Tables

1.1: Size distribution of manufacturing plants in Japan, U.S.A. and Britain 27
2.1: Distribution of workers (actual and percentage) in manufacturing by household, non-household and factory establishments - 1961 and 1981 33
2.3: Industry-wise distribution of total manufacturing employment by different organisational segments 34
2.4: Average size of factories-industry wise 1950 and 1970 35
2.5: Number of workers per factory industry wise 1971 to 1984-85 36
2.6: Distribution of factories by size of employment 36
2.7: Share of "small factories" in the factory sector, 1964 and 1978 38
2.8: Estimates of production, employment and investment in small scale sector 40
2.9: Growth of ancillary units 41
2.10(i): Establishment of sub-contracting exchanges 42
2.10(ii): Performance of sub-contracting exchanges 42
2.11: Age-wise, industry-wise distribution of units based on the census of small scale unit 1972-73 43
2.12: Distribution of industries (3 digit NIC) according to proportion of total number firms in each industry commencing production in each period 44
2.13: Age wise, industry-wise distribution of the sample enterprises 44
2.14: Age distribution of factories under ASI 45
2.15: Percentage distribution of industrial establishments of Jamshedpur according to the year of starting operations, medium and small sector only 53
2.16: Specialised activities of workshops 57
2.17: Daily wages of 185 workers in 12 light industrial enterprises in Bulsar and Bulsar taluka in 1974 59
3.1: Distribution of industries in Bangalore district, 1921 75
3.2: List of prominent industrial units set up during 1930s 77
3.3: Classification of industrial establishments and the number of persons employed in Bangalore district, 1941 77
3.4: Total number of workers by industry in Bangalore district 78
3.5: Important textile related industries in small establishments in Bangalore district 79
3.6: Important non-textile industries in small
3.7: Growth of population in Bangalore district, 1961-1981
3.8: Percentage of workers in Bangalore district, 1961-81
3.9: Industrial classification of total workers by
division in Bangalore district, 1961 and 1981
3.10: Percentage of employment in household industry to
total manufacturing employment
3.11(i): Industry-wise distribution of total
manufacturing employment in Bangalore
district, 1961.
3.11(ii): Industry-wise distribution of total
manufacturing employment in Bangalore
district, 1981
3.12(i): Minor industry groups which account
for at least one per cent of total manufactur­
ing employment in Bangalore district, 1961
3.12(ii): Minor industry groups which
account for at least one percent of total
manufacturing employment in Bangalore
district, 1981.
3.13: List of manufacturing industries (NIC 3 digit)
accounting for one per cent or more of net value added
in ASI census sector for 1980-81
3.14: Size distribution of factories in Bangalore district
coming under census sector of ASI, 1980-81
3.15: Distribution of factories under ASI census sector
by type of ownership, 1980-81
3.16: Total investment, turnover and employment in medium
and large scale industries units in Bangalore district, 1986
3.17: Industry group wise, age distribution of medium
and large industrial units in Bangalore, 1986
3.18: Growth of registered small scale enterprises
in Bangalore district, 1969-70 to 1984-85
3.19: Classification of registered SSI units in Bangalore
district according to broad industry groups, 1986
3.20: District-wise distribution of the number of
large and medium enterprises in Karnataka, 1981
3.21: Share of Bangalore district in the number of
factories, employment and value added in ASI
census sector in Karnataka
3.22(i): List of 'large' factories which have increased
maximum number of workers to be employed between
1963 and 1982
3.22(ii): List of 'large' factories which have increased
maximum amount of power proposed to be used between
1970 and 1982
3.23: Performance of the sub-contracting exchange, Bangalore
4.1: Bangalore Electricals Ltd. sales, exports number of
employees and workers, 1972 to 1983.
4.2: Trends in profitability ratios of BE
4.3: Market share of BE's important products
4.4: Distribution of BE's sub-contractors according to
number of workers employed
4.5: Age distribution of the sub-contracting firms
4.6: Distribution of sub-contractors according to the year of
commencement of supply to BE
4.7: Distribution of the sample sub-contractors proportion
of their output supplied to BE
4.8: Distribution of sample units according to the
wage paid per month.
4.9: Educational background of the sample entrepreneurs
5.1: Distribution of ancillaries according to the
nature of work done
5.2: Distribution of value of supplies by ancillaries
5.3: Distribution of ancillaries according to their value of supplies in 1982-83
5.4: Value of supplies from ancillaries
5.5: Percentage of supplies from ancillaries to total purchases by ITI
5.6: Break-up of total purchases in strowger division of the Bangalore complex
5.7: Data on labour rate and overheads costs used for price fixation
5.8: Some information about the ITI's ancillaries surveyed in 1982
6.1(a): Plants of HMT Ltd.
6.1(b): Divisions of HMT Ltd.
6.2: Share of different products (and product groups) in the sales of HMT
6.3: Employment in HMT (I&II)
6.4 Share of HMT in Indian machine tool industry
6.5 Value of production of machine tools and purchase from the exclusive ancillaries in HMT (I&II), in current prices
8.1: Age distribution of the workers
8.2: Original place of residence of the workers
8.3: Number of earning members in the family of the workers
8.4: Number of dependents in the workers' households
8.5: Distribution of the workers according to their mother-tongue
8.6: Educational qualification of the workers
8.7: Industry-wise distribution of firms employing the workers
8.8: Size distribution of the factories employing the workers
8.9: Linguistic background of the employers of the workers as revealed by the workers
8.10: Channels used by the workers in securing the present jobs
8.11: Length of service in the present job
8.12: Length of service in the previous job
8.13: Reasons for leaving the previous job
8.14(i): Distribution of daily wage rated workers
8.14(ii): Distribution of monthly wage rated workers

Figures

1.1: Distribution of employment in the Japanese manufacturing Industries, 1900-1970 24
1.2: Changes in number of self-employed in Japanese manufacturing 1948-67 25
2.1: Average Number of workers per factory 37
4.1: Sales of B.E. Ltd., 1972 to 1983 107
4.2: Consolidated minimum wage rate in B.E. Ltd., 1970 - 1982 107
5.1: Output of ITI. Bangalore complex, 1972-73 to 1982-83 142
5.2: Total number of employees and workers in Bangalore complex, 1950 to 1982. 143
