# CONTENTS

1. Introduction
   - 1.1. Decision Making
   - 1.2. Credit Analysis
      - 1.2.1. Techniques of Analysis
   - 1.3. Knowledge-based Decision Support Systems
      - 1.3.1. The Language System
      - 1.3.2. The Knowledge System
      - 1.3.3. The Problem Processing System
   - 1.4. Expert System Development Tools
   - 1.5. Fuzzy Logic

2. Literature Survey
   - Expert Systems for Bank Lending
   - Impacts of Expert Systems for Bank lending
   - Efficiency Impacts

3. Dedicated Shell for Credit Rating Analysis
   - 3.1. Selection of an Expert System Shell
   - 3.2. Development of an Expert System for Credit Rating Analysis

vi
4. Design of the Credit Analysis Shell (CAS) ..... 38
   4.1. Rule Representation as Tables in the Shell ..... 39
   4.2. Exceptional Rules ..... 49
   4.3. Representing Rules with Disjunctive Conditional ..... 51
   4.4. Customer Database ..... 51
   4.5. Knowledge Base and Inference Process ..... 52
   4.6. User Interface ..... 57

5. The Fuzzy Knowledge Base ..... 58

6. Knowledge Base Design ..... 66
   6.1. Knowledge Acquisition ..... 66
   6.2. Methodology ..... 67
   6.3. Design and Development ..... 68

7. Empirical Investigations with a Sample of Indian Banks ..... 76
   7.1. The Indian Banking Scene: ..... 76
   7.2. Mergers and Acquisitions ..... 77
   7.3. Influence of Modern Computer and Communication Technology ..... 77
   7.4. Empirical Studies with Data gathered from a Sample of Indian Banks ..... 78
7.4.1. Statistical Observations

7.4.2. Results of Empirical Investigations

8. Conclusions and Scope for Future Work

Appendix A : Financial Terms and Ratios
Appendix B : How to use CAS
Appendix C : Fuzzy Processing
Appendix D : Sample Rule Base

REFERENCES
