ACKNOWLEDGEMENTS

The satisfaction and euphoria that accompanies the successful completion of any task would be but incomplete without the mention of the people who made it possible and whose constant guidance and encouragement served as a beacon of light and crowned my effort with success. It is my privilege to express through the pages of this thesis, a few words of gratitude to all those who have guided me and inspired me all along. I hereby express my deep sense of gratitude and thankfulness to my supervisor Dr. K. B. PRAKASH, Professor and Dean for P G & Research, K. L. E’S College of Engineering & Technology, Belgaum-590008, Karnataka for the excellent guidance, constant endurance and inspiration given to me throughout the period of my study. I also greatly appreciate him for giving me lot of independence in carrying out my thesis and helped me without delay when I was in troubles.

I hereby express my deep sense of gratitude to Jawaharlal Nehru Technological University, Hyderabad for providing me an opportunity in fulfilling my most cherished desire of reaching my goal.

I am grateful to Prof. Dr. Ranganath. G I/c Principal and Vice-Principal, Chairman and the Management of my parent institution, Adhiyamaan College of Engineering, Hosur (Tamil nadu), who have been encouraging me all through. My special thanks are due to them.

I thank Principal of S T J Institute of Technology, Ranebennur and Principal of K. L. E’S College of Engineering and Technology, Belgaum, Karnataka for their strong support and help through which the authors derived the perennial enthusiasm. They are actively encouraging the research activities by providing an excellent environment to carry the research. It has been my pleasure and privilege to work in such an environment. Many other collegiate in the department also, have supplemented to the above by extending the facilities of their sections as well as their personal co-operation. I have been fortunate enough to receive kind co-operation and excellent facilities of instruments, particularly to carry on the experimental investigations.

In addition I here by express my deep sense of gratitude and thankfulness to Dr. Nataraja M. C. Professor, Sri Jayachamarajendra College of Engineering, Mysore, Dr. Prabhakar. D. L. Professor, Malnad College of Engineering Hassan, Karnataka and Dr. Shankarappa. F. Kodad, Vice-Principal, Aurora's Engineering College, Hyderabad.

The authors would like to thank His Holiness Sri Sri Sri Dr. Shivamurthy Shivacharya Mahaswamiji, President, S T J Education society, Sirigere for his sustained encouragement and blessings, which kept the enthusiasm alive. The authors are also greatly indebted to His Holiness Sri Sri Sri Shivarathreshawara Mahaswamiji, Suttur mutt, Mysore and His Holiness Sri Sri Sri Dr. Shivakumara Mahaswamiji, Siddaganga Mutt, Tumkur for their cheerful words.

I would like to specially acknowledge the affectionate, continual co-operation and understanding of my better half Hemalatha. Finally, I acknowledge with love, the warm inspiration and affection, which I have received from brother, sisters, in-laws and their children’s, parents- in- law and all my family members and friends for their constant support directly or indirectly.

Date: 28.06.2007

M. C. Prabhakara
