List of Figures

Figure 2.3.1 Sampling site ....................................................................................................16
Figure 2.3.2 Average Monthly Rainfall (mm) of River Basins ...........................................18
Figure 2.4.1 (a) Salinity distribution in the northern arm......................................................22
Figure 2.4.1 (b) Salinity distribution in the southern arm.....................................................23
Figure 2.4.1 (c) Seasonal distribution of salinity in the study region .................................. 24
Figure 2.4.2 (a) Temperature distribution in the northern arm ...........................................25
Figure 2.4.2 (b) Temperature distribution in the southern arm ...........................................25
Figure 2.4.2 (c) Seasonal distribution of temperature in the study region ..........................26
Figure 2.4.3 (a) Suspended Particulate Matter distribution in the northern arm ................27
Figure 2.4.3 (b) Suspended Particulate Matter distribution in the southern arm ................27
Figure 2.4.3 (c) Seasonal distribution of suspended particulate matter in the study region 28
Figure 2.4.4 (a) pH distribution in the northern arm ............................................................29
Figure 2.4.4 (b) pH distribution in the southern arm ............................................................29
Figure 2.4.4 (c) Seasonal distribution of pH in the study region .........................................30
Figure 2.4.5 (a) Dissolved Oxygen distribution in the northern arm .................................31
Figure 2.4.5 (b) Dissolved Oxygen distribution in the southern arm .................................31
Figure 2.4.5 (c) Seasonal distribution of dissolved oxygen in the study region .................32
Figure 2.4.6 (a) Nitrite distribution in the northern arm ....................................................33
Figure 2.4.6 (b) Nitrite distribution in the southern arm ....................................................33
Figure 2.4.6 (c) Seasonal distribution of Nitrite in the study region ..................................34
Figure 2.4.7 (a) Nitrate distribution in the northern arm ....................................................35
Figure 2.4.7 (b) Nitrate distribution in the southern arm ....................................................35
Figure 2.4.7 (c) Seasonal distribution of Nitrate in the study region ..................................36
Figure 2.4.8 (a) Ammonia distribution in the northern arm ................................................37
Figure 2.4.8 (b) Ammonia distribution in the southern arm ................................................37
Figure 2.4.8 (c) Seasonal distribution of Ammonia in the study region ..............................38
Figure 2.4.9 (a) Phosphate distribution in the northern arm .................................................39
Figure 2.4.9 (b) Phosphate distribution in the southern arm .................................................39
Figure 2.4.9 (c) Seasonal distribution of Phosphate in the study region .............................40
Figure 2.4.10 (a) Silicate distribution in the northern arm ..................................................41
Figure 2.4.10 (b) Silicate distribution in the southern arm ..................................................41
