<b>CHAPTER 1</b>	
<b>1,3-DIPOLAR CYCLOADDITION : AN OVERVIEW</b>	<b>1-57</b>
1.1 Abstract	1
1.2 1,3-Dipolar Cycloaddition	1
1.2.1 Definition and Classification of 1,3-Dipoles	2
1.2.2 The Dipolarophile	6
1.3 Mechanism of 1,3-Dipolar Cycloaddition	6
1.4 Regioselectivity and Reactivity	17
1.5 Stereoselectivity	23
1.6 1,3-Dipolar Cycloaddition : As a Synthetic Tool	25
1.7 Definition of the Problem	46
1.8 Objectives	48
1.9 References	49
<b>CHAPTER 2</b>	
<b>SYNTHESIS AND CHARACTERISATION OF A FEW NITRONES</b>	<b>59-90</b>
2.1 Abstract	59
2.2 Introduction	59
2.2.1 Application of Nitrones	61
2.2.2 Methods for the Synthesis of Nitrones	63
2.3 Results and Discussion	67
2.3.1 Synthesis of <i>N</i> -Fluorenylidene- <i>N</i> -arylnitrones [29a-b, 30b, 31b, 32, 34, 35, 36d-e]	68
2.3.2 Synthesis of <i>N</i> -Fluorenylidene- <i>N</i> -arylnitrones [29c, 30c, 31c, 33]	71
2.3.3 Synthesis of <i>N</i> -Naphthylidene- <i>N</i> -benzylnitron [37]	75
2.4 Experimental Section	76
2.5 References	87
<b>CHAPTER 3</b>	
<b>REACTIONS OF NITRONES WITH ELECTRON DEFICIENT ACETYLENES</b>	<b>91-141</b>
3.1 Abstract	91
3.2 Introduction	91
3.3 Results and Discussion	98

3.3.1	Reaction of <i>N</i> -Fluorenylidene- <i>N</i> -phenylnitrone with Benzoylphenylacetylene	100
3.3.2	Effect of solvents in the Reaction of <i>N</i> -Fluorenylidene- <i>N</i> -phenylnitrone with DBA	105
3.3.3	Decomposition of Isoxazoline Derivative	108
3.3.4	Reaction of <i>N</i> -Fluorenylidene- <i>N</i> -naphthyl-nitrone with DBA	109
3.3.5	Reactions of Substituted <i>N</i> -arylnitrones	111
3.3.6	Reactions of <i>N</i> -alkylnitrones	123
3.4	Experimental Section	128
3.5	References	138

#### *CHAPTER 4*

#### **SYNTHESIS OF SOME HIGHLY SUBSTITUTED QUINOLINE AND INDOLE DERIVATIVES** **143-201**

4.1	Abstract	143
4.2	Introduction	143
4.2.1	Quinolines	143
4.2.2	Indoles	149
4.3	Results and Discussion	159
4.3.1	Synthesis of 8-Substituted Quinoline Derivatives	162
4.3.2	Synthesis of 6-Substituted Quinoline Derivatives	165
4.3.3	Synthesis of 5- and 7-Substituted Quinoline Derivatives	166
4.3.4	Synthesis of 7-Substituted Quinoline Derivative	169
4.3.5	Synthesis of Benzo( <i>h</i> )quinoline Derivative	170
4.3.6	Attempted the synthesis of 8-Hydroxyquinoline Derivative	172
4.3.7	Attempted the synthesis of 8-Chloroquinoline Derivative	174
4.3.8	Synthesis of Highly Substituted Indoles	175
4.3.9	Reaction of <i>N</i> -Fluorenylidene- <i>N</i> -phenylnitrone with Cinnamoylphenylacetylene	178
4.3.10	Reaction of <i>N</i> -Fluorenylidene- <i>N</i> -phenylnitrone with Acetylphenylacetylene	185
4.3.11	Targeted Synthesis of 7-Substituted Indole	185
4.4	Experimental Section	187
4.5	References	199

#### **LIST OF PUBLICATIONS** **203**
