ACKNOWLEDGEMENT

At the very outset, I would like to express my sincere gratitude to my supervisor Dr D K Sharma, for his immense support for my Ph.D study. His guidance, motivation, and knowledge has made the study successful and enriched me. His guidance helped me enormously throughout my research work and in writing of this thesis.

I am grateful to all the faculty members of the Department of Zoology, Gauhati University, Prof. J. Kalita (HOD), Prof. K. Dutta, Prof J.C.Kalita, Prof. R.K Bhola, Dr. M. Das and retired faculties Prof. P.C. Bhattacharjee, Prof. A.Barkalita, Prof. A. Dutta, Prof. M.M.Goswami and Late. Prof. U.C. Goswami for being my teachers and guiding me all throughout.

I shall be ever grateful to Dr. Ashok Varma of ACTREC, Mumbai for providing me training on molecular tools and techniques. My sincere thanks goes to Dr. Pranjit Barman of Department of Biotechnology, who provided me an opportunity to access the laboratory and research facilities in GU Biotech Hub to carry out some of my research work. Without their precious support it would not be possible to conduct this research.

It would be impossible without the help and assistance of the NGO International Foundation for Animal Welfare, Kokrajhar to carry out my field work. I would like to specially thank Onthai, a worker of the NGO who untiringly helped me actively to carry out the field work and on-field documentation of data throughout my research.

I would like to give my sincere thanks to my friend and colleague Dr Sandeep Das who helped me immensely throughout the research by giving useful advice and ideas whenever required. I also would also like to express my gratitude to my friend Dr. Luit Mani Barkalita of the department of Animal Biotechnology, CVSc Khanapara who helped me out during technical difficulties.

I would like to thank my colleague Dr. Jatin Sarmah and friends Jonali, Dalimi, Kuwali, Nibedita, Mousumi, Rituparna and Juri for their support and encouragement during my research.
My family play a very important role in my life and moulding me into what I am today. So, I take this opportunity to thank my family members. I am indebted for the support and encouragement extended by my father Mr Prashanta Kumar Brahma who had been a constant source of inspiration all throughout my research work and my life. I pray my tribute to my mother late Chaban Kour, who always inspired during the initial years of my research. I am grateful to my mother-in law Smt. Niyati Rani De, for being the mother I needed and encouraged me in my research. I thank my husband Abhijit Dey who took all the pain and stood there with whatever help needed to make my research successful. I thank my loving brother Himangshu Sekhar Brahma for being there always for me. Last but never the least I thank my best friend Junu for all the support.

Sharmistha Brahma Kour
