ACKNOWLEDGEMENT

Mere words can never be sufficient to express the sense of gratitude to those whose consistence was indispensable for the completion of present work.

Firstly, I would like to express my sincere gratitude to my advisor **Dr. K.V. Ravishankar**, Principal Scientist, Division of Biotechnology, ICAR-IIHR, Bengaluru for the continuous support of my Ph.D study and related research. I would like to thank him for his patience, help, co-operation, motivation, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I appreciate all his contributions of time, suggestions, and funding to make my Ph.D. experience productive and stimulating.

I avail this opportunity to express my gratitude reverence to the members of my advisory committee:

**Dr. A Rekha**, Principal Scientist, Division of Fruit Crops, ICAR-IIHR for her guidance, encouragement and providing the genetic materials used in the present study.

**Dr. K.S. Shivashankar**, Head of the Department, Division of Plant physiology and Biochemistry, ICAR-IIHR, Bengaluru; **T.K. Roy**, Chief Technical Officer (Lab), Division of Plant physiology and Biochemistry, ICAR-IIHR, Bengaluru and **Dr. RH Laxman**, Principal Scientist, Division of Plant physiology and Biochemistry, ICAR-IIHR, Bengaluru for their ever inspiring support and guidance in biochemical and physiological aspects of my thesis. I would like to thank Dr. K.S. Shivashankar for raising interesting questions, which incented me to widen my research from various perspectives.

I thank **Dr. Santhosh Eapen**, for giving me an opportunity to attend the training program in NGS- Data analysis and annotation at ICAR-IISR, Kozhikode. It gave me confidence to handle the bioinformatics aspects in my study.

It gives me immense pleasure to thank **Mr. Sreedhar, Mr. Paramashivaiah**, my seniors and labmates – Padmakar, Swarupa, Sudarshini, Shilpa, Pushpa, Sandhya, Gowrish, Vidya, Pavitra, Geetha, Vithobha, Gayathri, Kavitha, Lakshman, Sri hari,
Manmohan, Kumar, Amar, Ashish, Amarjeeth and Anil for their support and co-operation in the lab.

I also would like to thank field workers Srinivas, Julakshi, Hanumanthaiah, Venkatesh, Suresh and Sunandha for their extraordinary strength, efficiency in work and timely help.

I wish to express my special thanks to my friends – Sneha, Supriya, Asha, Amrutha, Mohan, Shruthi, Shalini, for tolerating my stress levels during the journey of my PhD. I thank you for all the emotional support and constant encouragement.

One uses the choicest words to acknowledge the valuable help rendered by someone very close to heart. But I find such a measure inadequate to quantify the sacrifices, love, affection, support and concern shown to me by my parents Sri H N Sampangi Ramaiah and Smt. Sudha S Ram. I take the opportunity to thank my parents who raised me with a love of science and supported me in all my pursuits. Their unselfish struggle towards my well being and attainment of perfection in my career goals has been boundless and my gratitude is beyond words. Above all I am extremely thankful to almighty God who has blessed me to be what I am today.

I am very thankful to Jain University, Bengaluru for providing me an opportunity to register and processing all my research proceedings in time.

I do acknowledge the financial support from Indian Council of Agricultural Research (ICAR) – Network Project on Transgenics in Crops: Functional Genomics- Fusarium wilt and drought tolerance in Banana.

I sincerely thank ICAR-Indian Institute of Horticultural researches (IIHR), Bengaluru for giving me an opportunity to register for PhD and successfully complete my doctoral studies.

Thank you all.

(Megha H.S)
