ACKNOWLEDGEMENTS

All praise be to Almighty Allah, the Beneficent, the Merciful and the Lord of all that exists. It is by His grace and blessings that the present work has been accomplished.

First and foremost with reverence and profound gratitude, I have the honour of acknowledging the immense debt that I owe to my revered teacher, guide and mentor, Dr. Mukhtar Ahmad Khanday, Sr. Assistant Professor, Department of Mathematics, University of Kashmir, Srinagar, for his support and encouragement throughout the course of this study. His contagious enthusiasm and ever-optimistic outlook had made these years an all-round learning experience. Despite his heavy responsibilities, it is because of his painstaking support and continuous hard work that the present work has taken its shape.

I would like to thank Head, Department of Mathematics, University of Kashmir, Srinagar, for his constant encouragement and suggestions throughout the course of this programme.

I express my indebtedness to all the teachers of the Department of Mathematics for their helpful suggestions, encouragement and inspiration during the entire course of my research programme.

I am highly thankful to the non-teaching staff of the Department of Mathematics for their consistent help during the whole period of the said programme.

It is indeed a complicated task for me to put in words my gratitude for research colleagues, who not only gave me whole hearted support that provides me with the necessary spark of inspiration but also helped me in some way or other to complete this work.

I offer most sincere gratitude to the Department of Science and Technology (DST), Government of India, for financial support in the form of INSPIRE Fellowship (IF131187) under AORC scheme.
Last but not the least, I am extremely indebted to my parents for their understanding, sacrifice, unshakable faith, love and encouragement who bought me up despite the ills of life, in a position to carry out such a hard task. I extend my thanks to my sister who is a constant source of encouragement for me. I am extremely thankful to my brother for his every sincere efforts to make me always happy.
