ACKNOWLEDGMENTS

I sincerely have no elite words to express my profound gratitude, salute and appreciation, apart from a "Big Thank You", to Prof. Dr. G.N. Nayak, my research supervisor and guide, Dean, Faculty of Life Sciences & Environment and Professor & Head, Department of Marine Sciences, Goa University, for having explicitly guided me in my research work. Dr. Nayak has been my mentor, who has painstakingly navigated, guided and inspired me in initiating this research work and also its completion. He provided an independent platform, which instituted research temperament, proficient and aptitude in formulation of this thesis. His expertise, critical suggestions and incalculable guidance facilitated consistency in the data generation, analysis, and accomplishments.

I deeply accord my profound appreciation to Late Dr. T.T.S. Rao, founder faculty member, Dept of Marine Sciences, in providing me an opportunity to enjoy, explore, fascinate and appreciate the potentials and perceptive of coastal and ocean systems, through the subject of Marine Sciences.

My profound gratitude is recorded to the Vice Chancellor, the Registrar, Dy. & Asst. Registrars and Examination Section Officials, of the Goa University, for having extended all administrative support in completion of this research work. I remain indebted the Vice Chancellors Nominees in the Faculty Research Committee Members, Dr. Rajiv Nigam, and Dr. Nagaranath, Sr. Scientists, N.I.O (Goa), for having critically reviewed my research performance.

It is a deep sense of indebtedness and revere to Dr. Wilfred A. De Souza, Hon’ble Dy. Chief Minister and Minister for Science, Technology,
Environment and Tourism, Government of Goa, for having personally enthused and motivated me in completing this thesis work.

I am deeply indebted to the former Member Secretary, Goa State Council for Science & Technology, Dr. H.Y Karapurkar, for having granted me the requisite permission to pursue my Doctorial studies. I am immensely grateful to Dr. N.P.S. Varde, Director, Department of Science, Technology & Environment, Government of Goa, Saligao, for bestowing me a stalwart platform and career in Remote Sensing and GIS and also for the facilities utilized.

I am grateful to Dr. Elrich De Sa, former Director (N.I.O) and Dr. S.R Shetye, Director, N.I.O, Goa, for providing me the laboratory facilities at the N.I.O. I am also indebted to Dr. Tapaswy, Librarian, N.I.O, Goa, for providing the necessary periodicals, data sets, literature and research review material. Shri P. V. Sathe and Dr. A.K. Saran, Scientists N.I.O, Goa, are thanked for the satellite data products, aerial photographs, supplementary maps and digital data analysis. Dr. Antonio Mascarnehas, Dr. H.N Hashmini, Dr. Jagtap, Scientists, from the N.I.O, Goa, are thanked for their encouragement. I thank Dr. Jugar, Scientist, N.I.O, for his valuable suggestions at the FRC examination.

I am explicitly indebted to Dr. B.R. Subramaniam, Project Director, ICMAM, P.D, Chennai, for having provided his valuable guidance, expertise and laboratory facilities (R.S & GIS). I am profusely indebted to Mrs. Tune Usha, Scientist, of ICMAM P.D, Chennai, for her painstaking efforts in data digitization, analysis and integration. Shri Y. Pary and Shri V. Ballamurugam, Sr. Research Fellows, of I.O.M, Chennai, are deeply acknowledged for the digital and visual data interpretation, GIS data analysis and integration, as also, in the GPS field surveys. Dr. M.V
Ramana Murthy, Sr. Scientist, of ICMAM P.D, Chennai, is also acknowledged for his valuable inputs on shoreline change investigations. In addition, I thank Dr. T. Shanmugaraj, Scientist, CLMRE, Chennai, is thanked for inputs on living, non-living marine and coastal resources and fishery data. I thank Dr. V. Krishnamoorthy Director, S & T Andaman, Shri R.S.Kankara, and Dr. S. Sundarmoorthy, Scientists, ICMAM, P.D for inputs on coastal zone management. I remain grateful to Shri. K. M . Sivakholundu, Scientist, NIOT, Chennai, for elucidating the technique of High Tide Line Demarcation. Shri. A. Senthil Vel, Jt. Director, MOEF, Bangalore, is thanked for his appraisal on the CRZ Notifications.

I thank the Staff and former Head Dr. U. M. X. Sangodkar, Department of Marine Science & Biotechnology, Goa University, for their encouragement. I also record my gratefulness to Dr. H.B. Menon, Dr. V.M Matta, Dr. S. Upadhyay, Dr. Aftab. C. Can, Dr. C. U. Rivonkar, and Late Dr. Corneil Rodrigo, faculty of Marine Sciences, for their encouragement. I also thank the Non-Teaching Staff of the Marine Science Department, Goa University, for administrative help.

I also acknowledge the support of Dr. A.G.Dessai, Dr T.A Vishwanth, Dr. Anthony, and Late Dr. Raikar, faculty members of Earth Science Department, Goa University. Dr. A.G Chachadi, is also thanked for providing the literature on the subject. I thank Dr. K. Mahender, for having provided suggestions on the data analysis and integration. Prof. D. J Bhat, Head Dept of Botany, Goa University, is thanked for his support and encouragement. Dr. Dilip Arolkar, former Registrar, Goa University is specially thanked for his encouragement.
I thank Heads and staff of various Line Departments like, Fishery, Census, Town and Country Planning, Tourism, Village Panchayats, etc; Government of Goa, for providing supplementary data, statistical information and allied information. I thank Dr. (Mrs.) Sangeeta Sonak, TERI (Goa) for providing the Census of India handbooks, data and statistics.

My gratitude is due to Dr. Sheshadri, Dr. Sunder Murthy, Dr. Joseph Arokiadas, Dr. Menon, Dr. S. R Subramaniam, Scientists, from the NRSA, Department of Space, Hyderabad, for the advice on remote sensing platforms and sensors, vis-à-vis, GIS for the investigations. I thank Prof. Dr. (Mrs) P. Venkatachalam, Scientist, CSRE, IIT, Mumbai, for her inputs in the GIS database development and generation.

Dr. Honne Gowda, Scientist, from ISRO, is thanked for providing the manual on wetland mapping. Further, Dr. Shailesh Nayak, Scientist, SAC, Ahmedabad, DOS, is thanked for his expertise and views on CRZ framework, its institutional strengthening, concepts and approach. Shri. Uday Raj, Scientist, ISRO, Bangalore, is gratefully acknowledged for the satellite data products. I am indebted to Dr. V. Partharsarthy, former Director, GSI, Hyderabad, for the aerial photo interpretation. Thanks are to Dr. Sesha Rao, Director, R.S.I, Hyderabad, for providing the platforms, cartographic and software support.

Prof. F.B. Antao, (Retd) Head, Dept of Geology, Dhempe College, Goa, is thanked for being a source of encouragement and providing the topo maps. Mrs. Ramola Antao, is also equally acknowledged for her indistinguishable support. I thank Prof. Orlando Fernandez, Sr. Lecturer Dhempe College, Panaji. He is thanked for the GPS field surveys, coastal geomorphology mapping, Revenue Village data and GIS
I also thank Prof. A.G. Agshikar, and the faculty of Dept of Geology, and Miss Isabel Vaz of Dhempe College, Goa, for their support. I thank the Director and Staff of D.I.M, Goa and Dr. Deepak Mayenkar, my ex-colleague, for their encouragement.

I pledge my appreciation to Shri. L. Gnanapazham, Project Scientist, M.S. Swaminathan Research Foundation, Chennai, for the suggestions on mangrove and coastal ecosystem mapping. I thank Dr. M. Ramalingam, from the IRS, Chennai, for the suggestions on coastal geomorphology and digital data analysis. Dr. Ramachandran, former Director, I.O.M, Chennai, and V.C, Madras University, Chennai, is thanked for his expertise and inputs on coastal zone management and for the publications, manuals and literature. Prof R. Ramesh, Director, I.O.M, Anna University, Chennai, is thanked for sharing his explicit views on coastal disasters, specifically tsunamis. Dr. V. Thomas, Sr. Scientist, from CEES, Thiruvanantapuram, is thanked for suggestions on spatial and non-spatial data integration.

My special thanks are due to Shri, Willy Joao, for the field investigations, cartographic support and illustrations. Shri. Michael Lobo is thanked for his personate concern towards the completion of this assignment. I thank Shri. Tanchanacham M.C, Shri. Anthony, Shri. Jerry Rodriguez, Mrs. Thelma Mendes for assisting in the filed surveys, data simulation and analysis. I thank Shri. John Anthony D'Souza, Dy. Collector, Goa, for his inspiring words and encouragement. I owe my immense gratitude to Shri. Jayesh Kalangutkar, Mrs. Harsha Tamse, Mrs. Deepthi Chodankar, Mrs Prateema Kotharkar and Mrs. Pansy Pinho, Project Assistants, GSCS&T, for their superlative contribution to this thesis. I thank Shri. Francis Lucas, GSCS&T, for cartographic support and drainage network analysis. I thank Miss Deepthi Dessai and Shri. Tomchou Singh,
Research Fellows, Department of Marine Science, Goa University, for reviewing the chapters.

This research work, would not have been accomplished, without the constant encouragement, moral support and inspiration of my family members, my sister, sister-in-law, brothers, brother-in-law, and specially my elder Brother Peter, who I pledge my salute, for his consistent support, in my academic endeavors and for enduring responsibility and sacrifice towards my career enhancement. They all have been a source of motivation, and have maneuvered me to this pedestal of my career. I also pledge my profound gratitude and appreciation to my wife Sylvia my daughter Jenoshka and my in-laws for maintaining congenial decorum at home, during the phase of this work and also for always keeping me in joie de vivre, despite of several odd situations. Their wholehearted support and endorsement to my commitment in completing this thesis work is deeply acknowledged. I thank Rev Fr. Sylvester de Souza and Rev Fr. George, ocd from the Carmelite Monastery, for having shared their valuable prayers, blessings and best wishes to this venture.

I record my recognition to My Teachers and Gurus who have structured me from my primitive career to this position. It is honestly practically impossible to pen down all the names of well-wishers and supporters, who have been directly or indirectly associated with this accomplishment, my profound thanks to them all. Finally, I thank the Almighty for having bestowed his grace and blessings on me and helped me in completing this thesis work, despite of impediments.

De Souza Rauto Joseph R.S

Place: Goa University
