ACKNOWLEDGEMENT

I am grateful to Prof. Amitabh Mattoo who made this work possible. His unstinted guidance and tireless encouragement, which enabled me to develop a critical attitude towards, research. Despite his numerous pre-occupations and commitments, he has spent considerable amount of time and efforts in seeing me complete my thesis. Words would be insufficient to convey my sense of gratitude.

IDSA’s library staff especially Ameeta has been a saviour in times of distress. The same goes for Jawaharlal Nehru University library as well as the United Nations Information Centre and United States Information and Services.

Numerous friends and colleagues of mine have been an immense source of strength, support and encouragement. Omprakash Mishra who undoubtedly sowed the first seed. Besides him Munmum, Meena, Khsitij, Arpita, Paroma, Ajay, Swaran, Ashutosh and many many more who have been a part of this journey. And Chotu who was a constant source of joy and fun.

I also take this opportunity to put on record my appreciation for the faith, love and affection that Ma and Baba, Dada and Babli have reposed in me and this work is my way of saying a thank you to them. My gratitude also to each and every member of my extended family who have been a constant source of support and strength all these years. And Arup, who in his inimitable style made all this possible.

And if there is anyone who has shown greater understanding during these critical years, it is my Titli who kept my spirit alive unfailingly, especially when the going was getting tough.
