4.15 Blue print

5.1 Analysis of the responses of Commerce teachers regarding the present Status of teaching Commerce at Higher Secondary level

5.2 Date and Result of statistical constants of the Pre-test and Post-test scores on Leadership quality of Experimental group

5.3 Date and Result of statistical constants of the Pre-test and Post-test scores on Leadership quality (Component wise) of Experimental group

5.4 Date and Result of statistical constants of the Pre-test and Post-test scores on Leadership quality (Component wise) of Control group

5.5 Data and Result of Statistical constants of the Pre-test and Post-test scores on Business interest (total) of Experimental and Control groups

5.6 Data and Results of statistical constants of the Pre-test scores on Business interest (Component wise) of Experimental group

5.7 Data and Results of statistical constants of the Post-test scores on Business interest (Component wise) of Control group

5.8 Data and Result of statistical constants of the Pre-test and Post-test Scores on Achievement (total) in commerce of Experiment and Control Groups
5.9 Data and Result of statistical constants of the Pre-test Scores on Achievement in commerce of Experimental groups under the category of objectives

5.10 Data and Result of statistical constants of the Post-test Scores on Achievement in commerce of Control groups under the category of objectives

5.11 Data and Result of Test of Significance of Difference between the Mean Pre-test Scores of Experimental and Control Groups with respect to General Mental ability, Leadership quality, Business interest and Achievement in Commerce

5.12 Data and Result of test of significance of Difference between the Mean Pre-test, Post-test and gain scores on Leadership quality (total) of Experimental and Control groups.

5.13 Summary of Analysis of variance of the Pre-test and Post-test scores on Leadership quality of Experimental and Control groups

5.14 Summary of Analysis of Co-variance of the Pre-test and Post-test scores on Leadership quality of the Experimental and Control groups

5.15 Data for Adjusted Means of Post-test scores on Leadership quality of the Experimental and Control groups
5.16 Data and Result of Test of significance of Difference between the Mean Pre-test, Post-test and gain scores of Experimental and Control groups on the component of Leadership quality - Self confidence

5.17 Data and Result of Test of significance of Difference between the Mean Pre-test, Post-test and gain scores of Experimental and Control groups on the component of Leadership quality - Assertiveness

5.18 Data and Result of Test of significance of Difference between the Mean Pre-test, Post-test and gain scores of Experimental and Control groups on the component of Leadership quality - Emotional stability

5.19 Data and Result of Test of significance of Difference between the Mean Pre-test, Post-test and gain scores of Experimental and Control groups on the component of Leadership quality - Task orientation

5.20 Data and Result of Test of significance of Difference between the Mean Pre-test, Post-test and gain scores of Experimental and Control groups on the component of Leadership quality - Sincerity

5.21 Data and Result of Test of significance of Difference between the Mean Pre-test, Post-test and gain scores of Experimental and Control groups on the component of Leadership quality - High tolerance

5.22 Data and Result of Test of significance of Difference between the Mean Pre-test, Post-test and gain scores of Experimental and Control groups on the component of Leadership quality - Co-operation
5.23 Data and Result of Test of significance of Difference between the Mean Pre-test, Post-test and gain scores of Experimental and Control groups on the component of Leadership quality - Managing ability 274

5.24 Data and Result of Test of significance of Difference between the Mean Pre-test, Post-test and gain scores of Experimental and Control groups on the component of Leadership quality - Motivation 274

5.25 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality-Self confidence 277

5.26 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality -Assertiveness 278

5.27 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality-Emotional stability 278

5.28 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality- Task orientation 279

5.29 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality- Sincerity 279

5.30 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality- High tolerance 280
5.31 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Co-operation

5.32 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Managing ability

5.33 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Motivation

5.34 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Self confidence

5.35 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Assertiveness

5.36 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Emotional stability

5.37 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Task orientation

5.38 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Sincerity
5.39 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - High tolerance 285

5.40 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Co-operation 286

5.41 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Managing ability 286

5.42 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Leadership quality - Motivation 287

5.43 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Leadership quality - Self confidence 288

5.44 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Leadership quality - Assertiveness 288

5.45 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Leadership quality - Emotional stability 289

5.46 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Leadership quality - Task orientation 289

5.47 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Leadership quality - Sincerity 289
5.48 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Leadership quality - High tolerance.

5.49 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Leadership quality - Co-operation.

5.50 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Leadership quality - Managing ability.

5.51 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Leadership quality - Motivation.

5.52 Data and Result of Test of Significance of Difference between the Mean Pre-test, Post-test and Gain scores on Business interest of Experimental and Control groups.

5.53 Summary of Analysis of Variance of the Pre-test and Post-test scores on Business interest of the Experimental and Control groups.

5.54 Summary of Analysis of co-variance of the Pre-test and Post-test scores on Business interest of the Experimental and Control groups.

5.55 Data for Adjusted Means of Post-test Scores on Business interest of the Experimental and Control groups.

5.56 Data and Result of Test of Significance of Difference between the Mean Pre-test, Post-test and Gain scores of Experimental and Control groups on the component of Business interest - Learning ability.
5.57 Data and Result of Test of Significance of Difference between the Mean Pre-test, Post-test and Gain scores of Experimental and Control groups on the component of Business interest - Subject competency

5.58 Data and Result of Test of Significance of Difference between the Mean Pre-test, Post-test and Gain scores of Experimental and Control groups on the component of Business interest – Practicability

5.59 Data and Result of Test of Significance of Difference between the Mean Pre-test, Post-test and Gain scores of Experimental and Control groups on the component of Business interest - Market awareness

5.60 Data and Result of Test of Significance of Difference between the Mean Pre-test, Post-test and Gain scores of Experimental and Control groups on the component of Business interest - Economic reforms

5.61 Data and Result of Test of Significance of Difference between the Mean Pre-test, Post-test and Gain scores of Experimental and Control groups on the component of Business interest - Social obligation

5.62 Data and Result of Test of Significance of Difference between the Mean Pre-test, Post-test and Gain scores of Experimental and Control groups on the component of Business interest – Creativity

5.63 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Learning ability
5.64 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Subject competency 306

5.65 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest – Practicability 307

5.66 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Market awareness 307

5.67 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Economic reforms 308

5.68 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Social obligation 308

5.69 Summary of Analysis of variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Creativity 309

5.70 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Learning ability 310

5.71 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Subject competency 311
5.72 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Practicability  

5.73 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Market awareness  

5.74 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Economic reforms  

5.75 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Social obligation  

5.76 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on the component of Business interest - Creativity  

5.77 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Business interest - Learning ability  

5.78 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Business interest - Subject competency  

5.79 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Business interest - Practicability  

5.80 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Business interest - Market awareness
5.81 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Business interest - Economic reforms 316
5.82 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Business interest - Social obligation 316
5.83 Data for Adjusted Means of Post-test scores of Experimental and Control groups on the component of Business interest - Creativity 316
5.84 Data and Result of Test of Significance of Difference between the Mean Pre-test Post-test and Gain scores on total Achievement in Commerce of Experimental and Control groups 319
5.85 Summary of Analysis of Variance of the Pre-test and Post-test Scores on total Achievement in commerce of Experimental and Control groups 323
5.86 Summary of Analysis of co-variance of the Pre-test and Post-test scores on total Achievement in commerce of Experimental and Control groups 324
5.87 Data for Adjusted Means of Post-test scores on total Achievement in Commerce of the Experimental and Control groups 325
5.88 Data and Result of Test of Significance of Difference between the Mean Pre-test, Post-test and Gain Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Knowledge 328

5.95 Summary of Analysis of Variance of the Pre-test and Post-test Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives - Understanding 334

5.96 Summary of Analysis of Variance of the Pre-test and Post-test Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives - Application 334

5.97 Summary of Analysis of Variance of the Pre-test and Post-test Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives - Analysis 335

5.98 Summary of Analysis of Variance of the Pre-test and Post-test Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives - Synthesis 335

5.99 Summary of Analysis of Variance of the Pre-test and Post-test Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives - Evaluation 336

5.100 Summary of Analysis of co-variance of the Pre-test and Post-test scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Knowledge 337

5.101 Summary of Analysis of Variance of the Pre-test and Post-test Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Understanding 338
5.102 Summary of Analysis of Variance of the Pre-test and Post-test Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Application 338

5.103 Summary of Analysis of Variance of the Pre-test and Post-test Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Analysis 339

5.104 Summary of Analysis of Variance of the Pre-test and Post-test Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Synthesis 339

5.105 Summary of Analysis of Variance of the Pre-test and Post-test Scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Evaluation 340

5.106 Data for Adjusted Means of Post-test scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Knowledge 341

5.107 Data for Adjusted Means of Post-test scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Understanding 341
5.108 Data for Adjusted Means of Post-test scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Application

5.109 Data for Adjusted Means of Post-test scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Analysis

5.110 Data for Adjusted Means of Post-test scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Synthesis

5.111 Data for Adjusted Means of Post-test scores of Experimental and Control groups on Achievement in Commerce under the category of objectives – Evaluation

5.112 Data and Result of Test of significance of Difference between the Delayed Post-test scores on Achievement in Commerce of Experimental and Control groups

5.113 Data and Result of Test of significance of Difference between the Post-test scores and Delayed Post-test scores on Achievement in Commerce of Experimental and Control groups

5.114 Data and Result of Test of significance of Difference between the Delayed Post-test scores on Leadership quality of Experimental and Control groups

5.115 Data and Result of Test of significance of Difference between the Post-test scores and Delayed Post-test scores on Leadership quality of Experimental and Control groups
