</table>
4.6 Means and standard deviations of pre-test and post-test scores of Anxiety of patients with pathological low back pain and patients with somatoform low back pain when treated with homoeopathic medicine in combination with placebo

4.7 Means and standard deviations of pre-test and post-test scores of Depression of patients with pathological low back pain and patients with somatoform low back pain after treatment with homeopathic medicine

4.8 Means and standard deviations of pre-test and post-test scores of Depression of patients with pathological low back pain and patients with somatoform low back pain when treated with placebo

4.9 Means and standard deviations of pre-test and post-test scores of Depression of patients of low back pain with diagnosed pathology and patients with somatoform low back pain when treated with homoeopathic medicine in combination with placebo

4.10 Means and standard deviations of pre-test and post-test scores of Well being of patients with pathological low back pain and patients with somatoform low back pain when treated with homoeopathic medicine

4.11 Means and standard deviations of pre-test and post-test values of Well being of patients with pathological low back pain and patients with somatoform low back pain when treated with placebo
4.12 Means, standard deviations of pre-test and post-test values of Well being of patients with pathological low back pain and patients with somatoform low back pain when treated with homoeopathic medicine in combination with placebo

4.13 Means and standard deviations of pre-test and post-test scores in Pain when treated with homoeopathic medicines, treatment with placebo and with homoeopathic medicine in combination with placebo

4.14 Means and standard deviations of pre-test and post-test scores in Pain of patients with somatoform low back pain when treated with homoeopathic medicines, with placebo and with homoeopathic medicine in combination with placebo

4.15 Means and standard deviations of pre-test and post-test scores in Anxiety of patients with pathological low back pain when treated with homoeopathic medicines, with placebo and with homoeopathic medicine in combination with placebo

4.16 Means and standard deviations of pre-test and post-test scores in Anxiety of patients with somatoform low back pain when treated with homoeopathic medicines, with placebo and with homoeopathic medicine in combination with placebo

4.17 Means and standard deviations of pre-test and post-test scores in Depression of patients with pathological low back pain when treated with homoeopathic medicines,
with placebo and with homoeopathic medicine in combination with placebo

4.18 Means and standard deviations of pre-test and post-test scores in Depression of patients with somatoform low back pain when treated with homoeopathic medicines, with placebo and with homoeopathic medicine in combination with placebo

4.19 Means and standard deviations of pre-test and post-test scores in Well being of patients with pathological low back pain when treated with homoeopathic medicines, with placebo and with homoeopathic medicine in combination with placebo.

4.20 Means and standard deviations of pre-test and post-test scores in Wellbeing of patients with somatoform low back pain when treated with homoeopathic medicines, with placebo and with homoeopathic medicine in combination with placebo

4.21 Correlation coefficient and p value of pain and anxiety of patients with pathological low back pain group after correlation analysis

4.22 Correlation coefficient and p value of pain and depression of patients with pathological low back pain

4.23 Correlation coefficient and p value of pain and well being of patients with pathological low back pain

4.24 Correlation coefficient and p value of pain and anxiety of patients with somatoform low back pain
4.25 Correlation coefficient and p value of pain and depression of patients with somatoform low back pain 243

4.26 Correlation coefficient and p value of pain and wellbeing of patients with somatoform low back pain 243

4.27 Mean scores, standard deviations, percentage changes and p value of physical signs of patients with pathological low back pain after treatment with homoeopathic medicine, with placebo and with homoeopathic medicine in combination with placebo 244
