

CONTENTS

CHAPTER NO.		PAGE NO.
I	Introduction	1
II	Review of Literature	6
III	Materials and Methods	42
IV	Results	69
1	Chapter	69
1.0.0	Extraction, detection, purification, physical and biological properties N-terminal sequencing and immunological studies of chitosanase of <i>Arachis hypogaea</i>	69
1.0.1	Distribution of chitosanase activities of extracts of imbibed seeds, organs of 10d old seedlings and gynophores of <i>A.hypogaea</i>	69
1.0.2	Protein content and chitosanase activities of ammonium sulphate precipitated proteins of gynophore extracts.	70
1.0.3	Detection of chitosanase activities of crude extracts imbibed seed of organs of 10 d old seedling, and gynophore on native PAGE.	70
1.0.4	Detection of groundnut chitosanases on two dimensional electrophoresis.	71

1.0.5	Sephadex G-100 column chromatography of gynophore extracts	71
1.0.6	Chitosanase activity of proteins after preparative native PAGE	71
1.0.7	Molecular mass determination of chitosanase isoforms 1 and 2	72
1.1.0	Physical properties of purified chitosanases	72
1.1.1	pH optimum	72
1.1.2	Temperature optima of purified chitosanases	73
1.1.3	Substrate specificity of purified chitosanases	73
1.1.4	Effect of metal ions, iodoacetate and mercaptoethanol on inhibition of purified chitosanase (isoform-1) activity	73
1.1.5	Effect of metal ions on the activation of purified chitosanase (isoform-1) activity	74
1.1.6	N-terminal sequencing of chitosanase	74
1.2.0	Biological properties of chitosanases	75
1.2.1	Effect of purified chitosanase isoform 1 and 2 on the uredospore germination of <i>Puccinia arachidis</i>	75

1.2.2	Effect of purified chitosanases of groundnut gynophore on the conidial germination of deuteromycetous fungi	75
1.3.0	Serological studies on chitosanase	76
1.3.1	Production of polyclonal antibodies against purified chitosanase of <i>groundnut gynophore</i>	76
1.3.2	Immunoblot detection of chitosanases in the extracts of different organs of <i>A.hypogaea</i>	76
1.3.3	Localization of chitosanase in the organs of 10 d old seedling and gynophore of <i>A.hypogaea</i>	77
1.4.0	Localization of chitosanase in the organs 10 d old seedling and gynophore of <i>A.hypogaea</i>	78
1.4.1	Leaf	78
1.4.2	Stem	78
1.4.3	Cotyledon	78
1.4.4	Hypocotyl	79
1.4.5	Gynophore	79
1.4.6	Enzyme activity staining for chitosanase of buffer soluble proteins of germlings of grain legumes	80

1.4.7	Antigenic cross reactions of chitosanase antibody with proteins of germlings of leguminous plant	81
1.5.0	Discussion	82
2.0.0	Chapter	92
	Extraction, detection, purification, physical and biological properties and immunological studies of lysozyme of <i>A.hypogaea</i>	
2.0.1	Lysozyme activities of extracts of imbibed seeds, organs of 10 d old seedling and gynophore	92
2.0.2	Lysozyme activities of cell free extracts gynophore and ammonium sulphate fractionated proteins	93
2.0.3	Detection of lysozyme activity in the extracts of organs of 10 d old seedling, imbibed seed and gynophore of groundnut plant	93
2.0.4	Lysozyme activity of sephadex G-100 column chromatography eluted fractions	94
2.0.5	Lysozyme activity of proteins obtained after preparative native PAGE.	95
2.0.6	Enzyme activity staining for purified lysozyme on SDS-PAGE under non-reducing condition	95
2.0.7	Molecular weight determination of purified lysozyme of gynophore of <i>A.hypogaea</i>	96

2.1.0	Physical properties of purified lysozyme	96
2.1.1	pH optimum	96
2.1.2	Temperature optimum	96
2.1.3	Effect of metal ions and other chemicals on purified lysozyme	97
2.1.4	N-terminal sequencing of purified lysozyme	97
2.2.0	Biological properties of purified lysozyme of the gynophore of groundnut plant	98
2.2.1	Effect of lysozyme on the germination of uredospores of <i>P.arachidis</i>	98
2.2.2	Effect of lysozyme on the germination of conidia of deuteromycetous fungi	98
2.3.0	Serological studies on groundnut lysozyme	98
2.3.1	Production of polyclonal antibodies against groundnut gynophore lysozyme	99
2.3.2	Immunoblot detection of lysozyme in the organs of groundnut plant	99
2.4.0	Localization of lysozyme in the organs of groundnut plant	99
2.4.1	Leaf	99

CHAPTER NO.**PAGE NO.**

2.4.2	Stem	100
2.4.3	Gynophore	100
2.4.4	Lysozyme activity in the extracts of germlings of leguminous plants	100
2.4.5	Antigenic similarities of proteins of members of fabaceae to antibodies of groundnut gynophore lysozyme	101
2.5.0	Discussion	102
V	Summary	110
