LIST OF TABLES:

1. Table 1.1 : Showing the frequency of the respondents according to Age
2. Table 1.2: Showing the frequency of the respondents according to Education
3. Table 1.3: Showing the frequency of the respondents according to Family Income
4. Table 1.4 Showing the frequency of respondents on the basis of Area
5. Table 2.1: Frequency of respondents regarding listening /watching /reading habits of the cosmetic product advertisements.
6. Table 2.2.1: Frequency of respondents regarding their dealing with cosmetic product advertisements.
7. Table 2.2.2: Mean scores of deal with cosmetic advertisement.
8. Table: 2.3.1 Frequency of respondents awareness regarding source of information for the price of cosmetic product
9. Table: 2.3.2 Frequency of respondents awareness regarding source of information for the features of cosmetic product
10. Table: 2.3.3 Frequency of respondents awareness regarding source of information for the availability of cosmetic product
11. Table: 2.3.4: Frequency of respondents awareness regarding source of information for the Quality of cosmetic product
12. Table: 2.3.5: Showing the frequency of respondents awareness regarding source of information for the special offers given on cosmetic product
13. Table: 2.3.6 : showing the frequency of respondents awareness regarding source of information for the new brand of cosmetic products
14. Table: 2.3.7: Showing the frequency of respondents awareness regarding source of information for customer review about cosmetic products
15. Table: 2.3.8: Showing the frequency of respondents awareness regarding source of information for the precautions about use of cosmetic products
16. Table 2.3.9: Summary of the source of information regarding various factor of cosmetic product
17. Table 2.4.1: Frequency of awareness of urban respondents regarding advertising media
18. Table: 2.4.2: Frequency of awareness of rural respondents for advertising media
19. Table: 2.4.3: Descriptive statistics about awareness of respondents towards advertising media
20. Table: 3.1.1 Showing the Frequencies on various Perceptual statements (Area)
21. Table: 3.1.1(a) Summary of Chi-square on various perceptual statement (Area)
22. Table: 3.1.2 Showing the Frequencies on various Perceptual statements (Education)
23. Table: 3.1.2(a) Summary of Chi-square on various perceptual statement (Education)
24. Table: 3.1(a). Descriptive statistics of the perception of the respondents.
25. Table 3.1 (b): Tabular representation of the Hypothesis Testing Carried out
26. Table: 4.1.1 Showing the Frequencies of various buying decision statements (Area)
27. Table: 4.1.1(a) Summary of Chi-square of various buying decision statement (Area)
28. Table: 4.1.2 Showing the Frequencies of various buying decision statements (Education)
29. Table: 4.1.2(b) Summary of Chi-square of various buying decision statement (Education)
30. Table: 4.1(a). Descriptive statistics of the buying decision statement.
31. Table 4.1 (b) Tabular representation of the Hypothesis Testing Carried out
32. Table: 5.1.1 Frequencies of statements regarding impact of advertisement on brand (Area)
33. Table: 5.1.1(a) Summary of Chi-square test (area basis)
34. Table: 5.1.2 Frequencies of statements regarding impact of advertisement on brand (Education)
35. Table: 5.1.2(b) Summary of Chi-square test (Education)
36. Table: 5.1(a). Descriptive statistics regarding impact of advertisement on brand.
37. Table 5.1(b): Tabular representation of the Hypothesis Testing Carried out
38. Table: 5.2.1 Frequencies of responses to the various important factors for cosmetic brand preference
39. Table: 5.2.2. Descriptive Statistics on various important factors for brand preference
40. Table: 5.3.1: Showing the frequencies of various shampoo brand used before and after consideration of advertisement
41. Table: 5.3.2: Showing the frequencies of various cream brand used before and after consideration advertisement
42. Table: 5.3.3: Showing the frequencies of various hair oil brand used before and after consideration advertisement
43. Table: 5.3.4: Showing the frequencies of various soap brand used before and after consideration advertisement
44. Table: 5.3.5: Showing the frequencies of various lip cosmetic brand used before and after consideration advertisement
45. Table: 5.3.6: Showing the frequencies of various eyes make brand used before and after consideration advertisement
46. Table: 5.3.7: Showing the frequencies of various Deo brand used before and after consideration advertisement
47. Table: 6.1.1: Showing the frequencies of responses given to various factors of advertisement.
48. Table 6.1.2. Statistical value of the various factors of advertisement
49. Table: 6.1.3 Mean values of important factors for making advertisement appeal more attractive in promotion of cosmetic products.
50. Table: 6.2.1 Frequencies of responses given to various features of advertisement.
51. Table 6.2.2. Statistical values of the various features of advertisement
52. Table: 6.2.3 Mean values of important features for making advertisement appeal more attractive in promotion of cosmetic products.
