ACKNOWLEDGEMENT

This thesis has been the culmination of the research work done in the Department of Computer Science and Engineering, Manonmaniam Sundaranar University, under the supervision of Professor Dr. V. Sadasivam.

First and foremost I would like to thank the Lord Almighty, who bestowed His divine grace abundantly, which carried me through every step of my research work.

I am exclusively thankful to Professor Dr. K. Chockalingam, Dr. P. Cinthya Pandian, and Dr R. T. Sabapathy Mohan, the Former Vice-Chancellors of Manonmaniam Sundaranar University, Tirunelveli, for providing all necessary facilities to carry this research successfully. I thank the University authorities Dr. S. Manickam (Registrar), Shri. P. Chelliah (Finance Officer) and Dr. P. Madhava Soma Sundaram (Research Coordinator) who offered critical administrative support and managerial services in carrying out the study.

No words could express my gratitude to my thesis advisor Dr. V. Sadasivam, for the stimulating discussions, advice, and professional guidance during this research and the preparation of this thesis. Furthermore, he spent his precious time to read this thesis and gave his critical comments about it. I am very much indebted to his patience and invaluable advices that inspired me to see things positively and felt honored with his confidence and trust on my ability. It has been an honor to work with him. Certainly, he has been a significant presence in my life.

This dissertation somehow has its roots planted in 2001, when I first took the path of image compression on my Master's Degree thesis. A very special thanks to Professor Chandrasekhar for enlightening me the first glance of research during my Master’s degree course.
I owe a deep sense of gratitude to Dr. R.S. Rajesh who gave me the initial advices and recommendations for starting a doctoral study. It has been an honor to learn from him.

Collective acknowledgements are owed to my colleagues whose presence always refreshed, helpful and memorable. I am especially grateful to Mrs. G. Murugeshwari as it has been a pleasure having her as a friend. I shall forever cherish and value her ideas and useful tips. My sincere thanks to Mrs. Juliet for her kind hearted help in the implementations of JPEG 2000.

Many thanks to my sister-in-law Mrs. Magdalene who’s editing suggestions contributed a lot to the final copy. Heartfelt thanks to my brother and my Co-brother who are my well wishers.

To all others whom I have not mentioned, but would have been a stepping stone in my path, I submit my sincere thanks.

I especially wish to express my love for my husband who stood beside me and encouraged me constantly. Thanks to my children for giving me happiness and joy. I would also like to express my gratitude to my father-in-law and mother-in-law for their affection and sympathy.

This thesis is dedicated to my mother Mrs. J. Annathai, whose love, sympathy and sacrifice for me is boundless and who always kept me away from family responsibilities. It is also dedicated to my father Mr. S. Pitchaimani, who is my role model, who gently offers counsel and unconditional support at each turn of the road.

P. Arockia Jansi Rani
