ACKNOWLEDGEMENT

First of all, I thank the ALMIGHTY LORD NATARAJA and THILLAI GOVINDA RAJA PERUMAL of their blessings.

I am grateful to my supervisor Dr. M. MUTHULINGAM, Assistant Professor, Department of Zoology, Annamalai University, for his patience, for being inspirational, and for teaching me the importance of using curiosity as the driving force behind research. I would like to thank him for invaluable lessons about the importance of guidance and for the freedom he granted to me during my work in his lab.

I wish to convey my utmost gratitude to Dr. R. KARUPPASAMY, Professor and Head, Department of Zoology, Annamalai University, whose unique professional supervision, meticulous comments, thought provoking ideas and support at all levels have been very valuable throughout this work. I am obliged to say that without his patient guidance and encouragement this work could have not been a reality. His patience with me is sincerely treasured.

I express my profound thanks to Dr. G. VEERAIYAN, Professor and Wing Head, Zoology Wing (DDE), Annamalai University, who has provided all the facilities to carry out this work.

My thanks are due to Dr. P. RONALD ROSS and Dr. A.V. MURALIDHARAN, Assistant Professors, Department of Zoology, Annamalai University, Annamalainagar, for their tireless help for execution of the study.

I am also indebted to Dr. S. BARADHAN, Dean, Faculty of Science, Dr. G. SIVAKUMAR, Dr. B. SHANTHI, Associate Professors, Dr. B. GOPINATH, Assistant Professor, Mr. S. SENTHILMURUGAN, Lab Technician, Central Sophisticated Instrumentation Lab, Department of Physics, Annamalai University, for scanning electron microscopic study.

I am very glad to convey my grateful thanks to my colleagues Dr. K. MOORTHIKUMAR, Dr. J. PRAKASH SAHAYA LEON and Dr. P. SENTHIL ELANGO, Assistant Professors, Department of Zoology, Annamalai University, for their kind help for this period of work.

I am very glad to convey my grateful thanks to Dr. I. ARIVU, Dr. P. VENKATESH, Mr. M. JIYAVUDEEN, Mr. CHANDRASEKAR, Mr. D. VEERAKUMAR and Miss M. RAJAKANI, Ph.D. Scholars, Department of Zoology, Annamalai University, for their kind help for this period of work.
My great pleasure to acknowledge to Mrs. R. REETA, Technician, Department of Gastroenterology, Christian Medical College, Vellore, who has provided all the facilities to carry out transmission electron microscopic work.

I express my sincere thanks to Thiru. T. THIRUVARASAN, Advocate, Dr. R.T. SABAPATHY MOHAN, Former Vice-Chancellor, Manonmaniam Sundaranar University, Dr. VIJAYSHARMIE KRISHNAN, M.B.B.S., M.D., Dr. P. MOUVLEESHVARAN, M.B.B.S., Dr. S. BHUVANESHWARI, Assistant Professor of Zoology, Annamalai University, Dr. I. PERIYAR, Assistant Professor of Criminology, Manonmaniam Sundaranar University, for their blessings and wishes successful completion of this work.

I express my thanks to Mr. S. SRINIVASAN, Technician, Department of Gastroenterology, Christian Medical College, Vellore, who has provided all the facilities to carry out histopathological work.

Words fail to express my deepest gratitude to all the TEACHING and NON-TEACHING STAFF, Department of Zoology, Annamalai University for their support, providing me the lab facilities and congenial atmosphere to work.

I would like to express my heartfelt thanks to my family members particularly my beloved parents Mr. M. RATHINAM, Mrs. R. DHANALAXMI, sisters NAGAMMA SUBRAMANIAN, MALAR BALASUBRAMANIAN, VASANTHA CHANDRASEKAR and friends S. THAMARAISELVAN SUMATHI, P. SUBRAMANIAN, SUGUNAVARMA RAJA, I. BILAL, for their blessings, help, wishes and successful completion of this work.

Moreover my sincere thanks to the authorities of MANONMANIAM SUNDARANAR UNIVERSITY, Abishekapatti 627 012, Tirunelveli, for giving permission to do my research work.

Finally I thank M/s. RAJNOOR COMPUTERS, Annamalainagar for their neat execution of the thesis.
