ACKNOWLEDGEMENTS

With deep sense of gratitude, I wish to express my sincere thanks to my supervisor Prof. Uma Shankar, Department of Botany North-Eastern Hill University, Shillong for his invaluable help and excellent guidance and constant encouragement during the course of this study. His constructive criticism, valuable comments, constant encouragement, and sometimes soothing scolding, are some of the memories to be cherished the whole life. I hope this is not the end but just the beginning of a lifelong collaboration. I also express my sincere thanks to his wife Mrs. Shilpi Agarwal, daughter Aranya and son Amogha for giving him a homely atmosphere to work and to me constant encouragement and support.

I am grateful to Prof. A. K. Misra Dean, School of Life Science and Prof. B. K. Sharma, the then ex-Dean, School of Life Sciences. I express my profound gratitude to Prof. N. Venugopal Head, Department of Botany and Prof. N. K. Chirungoo, Prof. M. S. Dkhar, ex-Head and all other faculty members and non-teaching staff of the Department for their encouragement, support and cooperation in many ways. I am immensely fortunate to have had the pleasure of coming across them.

I am no less grateful to Prof. S. K. Borthakur, Dr. G. C. Sharma and all other faculty members of Department of Botany, Gauhati University for their constant encouragement and support.

My sincere thanks goes to Mr. Sailen Mohan Das and Dr. Rajib Gogoi for their constant guidance and encouragement from my college days till today.

I wish to express my appreciation to my friends, Kit, Donna, Devendra, Amit, Idā, Purabi, Nilofer, Mrinal, Rajat, Santosh, Sawan, Koushik, Kalyanjit, Niranjan, Bibhuti, Sekhar and all my research and hostel mates, who helped me in various ways, gave constructive advice and made my stay in the campus a lively one.

I am also thankful to Director in-charge of BSI, ERC Shillong and BSI APRC Itanagar (Dr. S. J. Phukan, Dr. B. K. Sinha, Dr. A. A. Mao) for kindly allowing me to consult the herbarium, all the scientific and technical staff of BSI for helping me in identification.

I am also thankful to all range officers, DFOs and PCCF of Department of Forest, Government of Assam, for allowing me to work in the protected areas and thanks goes to a number of forest guard and field assistants from different parts of lower Assam who help me during the transect survey.

The study made use of the data bank provided free by several international agencies: WorldClim (http://www.worldclim.org/), SRTM (http://srtm.csi.cgiar.org/),
DIVAGIS (http://www.diva-gis.org/), Google Earth (http://www.google.com/earth/)

It was not possible for me to work without the financial support. I gratefully acknowledge the principal support from the networked project coordinated by Prof. Uma Shankar with grant from the Department of Biotechnology through the project “Mapping and quantitative assessment of geographic distribution and population status of plant resources of Eastern Himalaya”, New Delhi (grant #BT/PR7928/NDB/52/9/2006 dt. 29.09.2006). I also acknowledge partial support from the UGC in form of Meritorious/BSR fellowship and the facilities in the Department. My respectful gratitude goes to Prof. K. N. Ganeshaiah, GKVK, Bangalore, Project Advisor of DBT project.

I am also grateful to all my relatives, well-wishers and M. Sc. classmates for their support and for being my constant source of inspiration.

Finally, I am grateful to all my family members, especially father Mr. Ghanashyam Borah, mother Mrs. Bina Borah, brother Sapun, my wife Mrs. Juthika Dihingia, father-in-law Mr. Mitharam Dihingia, mother-in-law Mrs. Binu Borgohain, brother-in-law Bidot da and sister-in-law Swarnali. It would have been impossible to accomplish the study without their good wishes, constant and unfailing encouragement and moral support.

Finally, I am thankful to the almighty God for his blessings in carrying out this research work.

(SOURAV)YOTI BORAH)
DEDICATED TO MY
PARENTS
