ABSTRACTS

Dolak, Grace-Anne Teresa, PhD. University of Nebraska-Lincon, 2000: Exploring the use of metacognitive strategies in college teaching: An instrumental multiple case study

Eidson, Carokine PhD Cunningham, University of Virginia 2000: The development of metacognitive response in young gifted children.

Wolf, sara Elizabeth, PhD, Arizona state University, 2000: The Big six information skills, as a metacognitive scaffold in solving information-based problems.

Leapad, Barbara Bennett,PhD University of Toledo, 2000: Affective metacognitive, and conceptual effects of an Emerging scholars program on elementary teacher preparation: an application of the Treisman model

Cline, Richard W., PhD., Utah state University, 2000: The teach ability and utilization of a metacognitive strategy in distance learning classroom.

Schakel, Sharon Kreun, PhD, University of Pennsylvania, 2001: Reflective paragraphs as metacognitive opportunities for writing improvement.
Ferguson, Jean Clarkem Ed.D Boston University, 2001: Effects of metacognitive strategy instruction on sixth grade students content reading comprehension.

Gill Barbara J .PhD., The Florida state University, 2001: Students goals and self-regulation in a classroom context

Schechter, Lynn Rence, PhD., Columbia University, 2001: An investigation of the cognitive process underlying the metacognitive monitoring of the text.

Mukerheide, Paul R. PhD. Illinois state University, 2001: Becoming Standards like changes in elementary Preservice teachers through reflective intervention

Massa, Nicholas M., PhD. The University of Connecticut 2003: Metacognition and persistence in Web-based courses

Schreiber, Fredric Joseph; PhD the University of Connecticut 2003: Exploring metacognition and self-regulation in an enrichment reading program

Baxt, Susan V PhD Carleton University (Canada), 2003: Metacognition gets personality: A developmental study of the personality correlates of metacognitive functioning

Shin, Seung-Ryul; PhD. The Florida State University, 2002: The effects of a metacognitive art criticism teaching strategy that incorporates computer technology on critical thinking skill and art critiquing ability

Kenton, Jeffrey Michael. PhD. Iowa state University, 2002: Metacognition and meteorology: Using reflective thinking strategies to help novice weather forecasters adopt effective forecasting strategies
Grant, Anthony Maurice; PhD. Macquarie University (Australia) 2002: *Towards a psychology of coaching: The impact of coaching on metacognition, mental health and goal attainment*

Carberry, David John PhD University of Minnesota, 2003: *The effects of cross-age tutoring in reading on tutees, tutors and metacognitively trained tutors*

Martens, Lynn R, PhD. University of Kansas, 2004: *The development of student metacognition and self-regulated learning in the classroom by monitoring learning strategies and response-certitude on assessments*

Victor, Andrea Marie PhD. Illinois Institute of Technology, 2004: *The effects of metacognitive instruction on the planning and academic achievement of first and second grade children*

Shabaya, Judith, PhD The University of Akron, 2004: *The role of pre-service teachers in developing metacognitive awareness strategies among student writers in an urban high school English classroom*
Motivation

Van Meter, Kurt Jay, University of Toledo, 2000: Flow, self-efficacy and self-esteem: Life histories of motivated teachers in the latter portion of their careers.

Stevens, Tara Ann, Texas Tech University, 2000: Inherent factors and mathematics achievement: the mediating effects of mathematics self-efficacy and motivational Orientation

Anton-oldenburg, Mary Felice, PhD. Harvard University, 2000: “I do not like to pool around, I like to read”: A qualitative analysis of self-evaluation, motivation and engagement in a first and second grade classroom.

Carriger, Cynthia Hogan, PhD. Texas A&M University, 2009: Factors male and female Hispanic students perceive as barriers and motivation for participation in post secondary education for three community college sites.

Seyhan, Serpil, United States PhD. International University, 2000: The impact of anxiety, self-esteem and motivation on the oral communication of German and Japanese adult ESL students.

Meyers, Deborah Yvette Roddey, PhD University of La Verne, 2000: The factors that motivate and impede computer use by teachers

Campanella Bracken, Cheryl Marie, Temple University 2000: Children and social responses to computers: praise, intrinsic motivation, and learning.

Wudthayagron, Jirada, University of Pittsburgh, 2000: Attitude and motivation of elementary school students in a Japanese FLES program

Willems, Patricia Pulido, PhD. University of Florida, 2000: *The effects of situated cognition, academic efficacy, and intrinsic motivation on education students’ learning of reciprocal teaching.*

Hampton, Scott PhD. The Florida State University, 2001: *Students ratings feedback and consultation on instructional practices; effects of teaching, learning, motivation.*

Miller, Nancy Carol Sanders, PhD The University of Texas at Austin 2000: *Perceptions of motivation in developmental mathematical students; I would rather drill my own teeth.*

Weishaar, Bridget. A EdD. Loyola University of Chicago, 2001: *The effects of various modes of parental involvement on secondary students motivation and academic achievement.*

Hedrick, Maria Viego, PhD. University of Central Florida, 2001: *An analysis of motivation and achievement in the Algebra I classroom utilizing the CANE model of cognitive motivation.*

Christensen, Emily Fast, EdD, University of Missouri-Saint Louis, 2002: *The effect of homework choices on achievement and intrinsic motivation.*

Ripke, Marika Nicole, PhD the university of Texas at Austin, 2001: *Middle school children’s perceptions and motivation regarding work and their future: simple and complex.*
Kausler, Deena Amy, PhD University of Missouri - Saint Louis 2004: College professors' use of motivational strategies.

Chapel, Fredrick Milton, EdD. Fielding Graduate Institute, 2004: The use of the history of science as a motivational tool in middle school science

Johnson, Marla J. PhD Utah State University, 2004: A case study of how one teacher's beliefs of his students influences his instructional practices in a middle school science classroom

McManic, Janet A PhD. Georgia State University, 2004: Students' perceptions of motivation in high school biology class: Informing current theories

Van Evera, William C. PhD. George Mason University, 2004: Achievement and motivation in the middle school science classroom: The effects of formative assessment feedback

Wagman, Janet Campbell PhD. Capella University, 2005: The effects of an inquiry-Internet research project on motivation, self-efficacy, and academic autonomy in heterogeneously grouped high school Latin I students

Wao, Felix Ogando, PhD. The Catholic University of America, 2005: Catholic high school principals: A study of principals' motivation, commitment and satisfaction

Teaching Competency

Chen, Catherine Tsou Chi, PhD. University of California, Santa Barbara 2000: Teaching and learning science as a human activity: An ethnographic investigation of the social processes involved in elementary school science
Ayres, Donna B. PhD. George Mason University, 2002: *The effectiveness of a lesson planning strategy to aid pre service elementary teachers in developing reflective practice on lesson design*

Smilan, Cathy A. EdD. Florida Atlantic University, 2004: *The impact of art integration as an intervention to assist learners' visual perception and concept understanding in elementary science*

Henebry, Holly Schaefer, PhD. University Of Southern California, 2004: *Early career teachers' views of their elementary science teaching methods courses: The relationship between pre service preparation and the realities of the first years of teaching*

Cervoni, Cleti, EdD. Harvard University, 2004: *Boys and girls 'doing science' and 'doing gender'*

Ebrahim, Ali PhD OHIO UNIVERSITY, 2004: *The effects of traditional learning and a learning cycle inquiry learning strategy on students' science achievement and attitudes toward elementary science (Kuwait)*

Tran, Lynn Uyen PhD. North Carolina State University, 2004: *Teaching science in museums*

McNall, Rebecca Lee PhD. University Of Virginia, 2004: *Beginning secondary science teachers' instructional use of educational technology during the induction year*

AL-Abdulkareem, Saleh A. M, EdD. West Virginia University, 2004: *Investigating science teachers' beliefs about science and science teaching: Struggles in implementing science education reform in Saudi Arabia*
Foley, Kathleen R. PhD. The Florida State University, 2004: *Science teacher educator change: A case study report*

Henebry, Holly Schaefer, PhD. University of Southern California, 2004: *Early career teachers' views of their elementary science teaching methods courses: The relationship between pre service preparation and the realities of the first years of teaching*

Upadhyay, Bhaskar Raj PhD. The University of Texas At Austin, 2004: *Teacher thinking and interconnectedness: Teachers' thinking about students' experiences and science concepts during classroom teaching*
