</table>
16. Pre-test Mean, S.D scores on Democratic values of the Control Group, Experimental Group I and Experimental Group II through Democratic Value Scale (D.V.S)

17. Test of Significant Mean difference among the three groups in the pre-test scores of Democratic values through D.V.S

18. Pre-test Mean, S.D scores on Equality value of the Control Group, Experimental Group I and Experimental Group II

19. Test of Significant Mean difference among the three groups in the pre-test scores of Equality value

20. Pre-test Mean, S.D scores on Liberty value of the Control Group, Experimental Group I and Experimental Group II

21. Test of Significant Mean difference among the three groups in the pre-test scores of Liberty value

22. Pre-test Mean, S.D scores on Fraternity Value of the Control Group, Experimental Group I and Experimental Group II

23. Test of Significant Mean difference among the three groups in the pre-test scores of Fraternity value

24. Pre-test Mean, S.D scores on Justice value of the Control Group, Experimental Group I and Experimental Group II

25. Test of Significant Mean difference among the three groups in the pre-test scores of Justice value

26. Pre-test Mean, S.D scores on ranking the Democratic value in their order of preference of the Control Group, Experimental Group I and Experimental Group II

27. Test of Significant Mean difference among the three groups in the pre-test scores on ranking the Democratic value in their order of preference
28. Pre-test Mean, S.D scores on Value Judgement of the Control Group, Experimental Group I and Experimental Group II

29. Test of Significant Mean difference among the three groups in the pre-test scores of Value Judgement

30. Pre-test Mean, S.D scores on Social Adjustment of the Control Group, Experimental Group I and Experimental Group II

31. Test of Significant Mean difference among the three groups in the pre-test scores of Social Adjustment

32. Pre-test Mean, S.D scores on Self-Concept of the Control Group, Experimental Group I and Experimental Group II

33. Test of Significant Mean difference among the three groups in the pre-test scores of Self-Concept

34. Post-test Mean, S.D and Gain scores in percentages, on Democratic value of the Control Group, Experimental Group I and Experimental Group II through Personal Value Questionnaire

35. Test of Significant mean difference among the three groups in the post-test scores of Democratic values through P.V.Q

36. Post-test Mean, S.D and Gain scores in percentages on Democratic values of the Control Group, Experimental Group I and Experimental Group II

37. Test of Significant mean difference among the three groups in the post-test scores of Democratic values through D.V.Q

38. Post-test Mean, S.D and Gain scores in percentage on Equality value of the Control Group, Experimental Group I and Experimental Group II

39. Test of Significant mean difference among the three groups in the post-test scores of Equality value
40. Post-test Mean, S.D and Gain scores in percentage on Liberty value of the Control Group, Experimental Group I and Experimental Group II

41. Test of Significant mean difference among the three groups in the post-test scores of Liberty value

42. Post-test Mean, S.D and Gain scores in percentage on Fraternity value of the Control Group, Experimental Group I and Experimental Group II

43. Test of Significant mean difference among the three groups in the post-test scores of Fraternity value

44. Post-test Mean, S.D and Gain scores in percentage on Justice value of the Control Group, Experimental Group I and Experimental Group II

45. Test of Significant mean difference among the three groups in the post-test scores of Justice value

46. Post-test Mean, S.D and Gain scores in percentage on ranking the Democratic value in their order of preference of the Control Group, Experimental Group I and Experimental Group II

47. Test of Significant mean difference among the three groups in the post-test scores on ranking the Democratic value in their order of preference

48. Post-test Mean, S.D and Gain scores in percentage on Value Judgement of the Control Group, Experimental Group I and Experimental Group II

49. Test of Significant mean difference among the three groups in the post-test scores of Value Judgement

50. Post-test Mean, S.D and Gain scores in percentage on Social Adjustment of the Control Group, Experimental Group I and Experimental Group II

51. Test of Significant mean difference among the three groups in the post-test scores of Social Adjustment
52. Post-test Mean, S.D and Gain scores in percentage on Culture Fair Intelligence of the Control Group, Experimental Group I and Experimental Group II

53. Test of Significant mean difference among the three groups in the post-test scores of Culture Fair Intelligence Test

54. Post-test Mean, S.D and Gain scores in percentage on Self-Concept of the Control Group, Experimental Group I and Experimental Group II

55. Test of Significant mean difference among the three groups in the post-test scores of Self-Concept

56. Post-test Mean, S.D scores on Democratic values of 16 years, 17 years and 18 years age group of students from Control Group, Experimental Group I and Experimental Group II

57. Test of significant mean difference in the post-test scores on Democratic values among the 16, 17 and 18 years age group students from Control Group, Experimental Group I and Experimental Group II

58. Post-test Mean, S.D scores on Democratic values of Science, Arts and Vocational group students from Control Group, Experimental Group I and Experimental Group II

59. Test of significant mean difference in the Post-test scores on Democratic values among the Science, Arts and Vocational group students from Control Group, Experimental Group I and Experimental Group II

60. Significance of difference between Mean and S.D of the pre-test and post-test Democratic value scores of the students from Control group, Experimental group I and II through P.V.Q

61. Significance of difference between Mean and S.D of the pre-test and post-test Democratic value scores of the students from Control group, Experimental group I and II through D.V.S
62. Significance of difference between Mean and S.D of the pre-test and post-test Equality value scores of the students from Control group, Experimental group I and II

63. Significance of difference between Mean and S.D of the pre-test and post-test Liberty value scores of the students from Control group, Experimental group I and II

64. Significance of difference between Mean and S.D of the pre-test and post-test Fraternity value scores of the students from Control group, Experimental group I and II

65. Significance of difference between Mean and S.D of the pre-test and post-test Justice value scores of the students from Control group, Experimental group I and II

66. Significance of difference between Mean and S.D of the pre-test and post-test Value order scores of the students from Control group, Experimental group I and II

67. Significance of difference between Mean and S.D of the pre-test and post-test Value Judgement scores of the students from Control group, Experimental group I and II

68. Significance of difference between Mean and S.D of the pre-test and post-test Social Adjustment scores of the students from Control group, Experimental group I and II

69. Significance of difference between Mean and S.D of the pre-test and post-test Intelligence scores of the students from Control group, Experimental group I and II

70. Significance of difference between Mean and S.D of the pre-test and post-test Self-concept scores of the students from Control group, Experimental group I and II

71. Distribution of KW value (Kruskal-Wallis analysis of variance by ranks) and rank averages from Control group, Experimental groups I and II
72. Comparison of difference in rank averages among the Control group, Experimental groups I and II in Democratic value scores through PVG and DVS
73. Distribution of KW value and rank average from Control group, Experimental groups I and II in their Equality value
74. Comparison of difference in rank averages among the Control group, Experimental group I and II in their Equality value
75. Distribution of KW value and rank average from Control group, Experimental groups I and II in their Liberty value
76. Comparison of difference in rank averages among the Control group, Experimental group I and II in their Liberty value
77. Distribution of KW value and rank average from Control group, Experimental groups I and II in their Fraternity value
78. Comparison of difference in rank averages among the Control group, Experimental group I and II in their Fraternity value
79. Distribution of KW value and rank average from Control group, Experimental groups I and II in their Justice value
80. Comparison of difference in rank averages among the Control group, Experimental group I and II in their Justice value
81. Distribution of KW value and rank average from Control group, Experimental groups I and II in their order of preference in ranking the Democratic value
82. Comparison of difference in rank averages among the Control group, Experimental groups I and II in ranking the Democratic value in their order of preference
83. Distribution of KW value and rank average from Control group, Experimental groups I and II in their Value Judgement
84. Comparison of difference in rank averages among the Control group, Experimental group I and II in their Value Judgement

85. Distribution of KW value and rank average from Control group, Experimental groups I and II in their Social Adjustment

86. Comparison of difference in rank averages among the Control group, Experimental group I and II in their Social Adjustment

87. Distribution of KW value and rank average from Control group, Experimental groups I and II in their Intelligence

88. Comparison of difference in rank averages among the Control group, Experimental groups I and II in their Intelligence

89. Distribution of KW value and rank average from Control group, Experimental groups I and II in their Self-concept

90. Comparison of difference in rank averages among the Control group, Experimental groups I and II in their Self-concept

91. Distribution of post-test Mean, S.D and "t" value between boys and girls of all the three groups on Democratic values through PVQ and DVS

92. Distribution of post-test Mean, S.D and "t" value between boys and girls of all the three groups on Equality value

93. Distribution of post-test Mean, S.D and "t" value between boys and girls of all the three groups on Liberty value

94. Distribution of post-test Mean, S.D and "t" value between boys and girls of all the three groups on Fraternity value

95. Distribution of post-test Mean, S.D and "t" value between boys and girls of all the three groups on Justice value
96. Distribution of post-test Mean, S.D and "t" value between boys and girls of all the three groups on Democratic value order of preference

97. Distribution of post-test Mean, S.D and "t" value between boys and girls of all the three groups on Value Judgement

98. Distribution of post-test Mean, S.D and "t" value between boys and girls of all the three groups on Social Adjustment

99. Distribution of post-test Mean, S.D and "t" value between boys and girls of all the three groups on Intelligence

100. Distribution of post-test Mean, S.D and "t" value between boys and girls of all the three groups on Self-concept

101. Test of significance for association between the Democratic value and the order of preference in ranking the Democratic value of all the groups of standard XI

102. Test of significance for association between the Democratic value and value judgement of all the three groups of standard XI.

103. Test of significance for association between the Democratic value and Social Adjustment of all the three groups of standard XI.

104. Test of significance for association between the Democratic value and the Intelligence of all the three groups of standard XI.

105. Test of significance for association between the Democratic value and the Self-Concept of all the three groups of standard XI.

106. Test of significance for association between the Democratic value and the Age (16, 17 and 18) of all the three groups of standard XI.

107. Test of significance for association between the Democratic value and the groups of study (Science, Arts, Vocational) of all the three groups of standard XI.
