Acknowledgments

Many thanks to my mentor Professor Dr. K. N. Dhumal, (Former Professor of Botany, Savitribai Phule Pune University) who gave me the opportunity to explore the fascinating world of crop physiology with plentiful freedom and resources. I thank my co-guides Prof. Dr. P. G. Saptarshi (Former Professor and Head department of Environmental Sciences, Savitribai Phule Pune University) and Dr. H. Pirdashti (Associate Professor, Department of Agronomy, Genetic and Agricultural Biotechnology, Sari Agricultural Sciences and Natural Resources University, Sari, Iran) for their valuable guidance, advice, suggestion, critical comments and fruit full discussions that greatly improved my subject knowledge.

I am very much thankful to Professor Dr. N. R. Karmalkar, Head Department of Environmental Sciences, Savitribai Phule Pune University for providing necessary laboratory facilities to carry out this research.

I greatly acknowledge the help rendered by my intimate friends Dr. A. Rezaei Taleshi, Dr. M. Gardeh, Dr. M. Zaefi Zadeh and Dr. A. R. Etemad. I should really thank Dr. E. Zand, Dr. Taheri and Dr. Motallebi from the Agriculture Research Ministry of Iran, who supported me to complete this research work. I place on record my sincere thanks to all research students, teaching and non-teaching staff of Department of Environmental Sciences, Savitribai Phule Pune University, for their timely help during the course of research work.

I have no words to express my heartiest gratitude to my better half Mrs Hourieh and beloved son Mohammad for their unflinching and patient moral support at every stage of this work, without their support it would not be possible for me to complete this piece of work in time.

Above all I thank, The Almighty for giving me enough strength, good health and knowledge for completing the task satisfactorily.
