Acknowledgement

First and foremost I thank God Almighty for His divine providence in my life throughout especially during my Ph.D. programme.

I owe my sincere gratitude to Dr. Beena Mathew, Associate Professor, School of Chemical Sciences, Mahatma Gandhi University, Kottayam for her invaluable guidance. She was a continuous source of inspiration throughout the course of my work. Constant encouragement and timely advice, offered by her will always remain in my heart. Without her kind support I would not have been able to complete this task.

Dr. Sabu Thomas, Director, School of Chemical Sciences had always been there with a helping hand. I must thank him for his help and providing me with all the facilities.

I express my sincere thanks to all the faculty members especially Dr. P. K. Radhakrishnan, Dr. A. S. Padmanabhan and Dr. K. S. Devaky of School of Chemical Sciences for their support and encouragement.

I remember Dr. V. N. Rajasekharan Pillai, Dr. M. Padmanabhan and Dr. M. R. Gopinathan Nair, former Directors, School of Chemical Sciences for their valuable help.

I thank Dr. Claramma Varkey, Dr. S. Meenakumary, Dr. K. C. Manikandan Nair (Scientific Officers), and Dr. C. Arunan for their support.

Mr. C.P. Sunny, Librarian, and Mr. Philip. C. Joseph, Computer Programmer, School of Chemical Sciences, have been very helpful during the course of my work so also all other members of the non teaching staff.
I am really grateful to each of them. I cannot forget the help from University library staff. I sincerely thank each one of them.

I acknowledge with thanks the timely help and cooperation rendered by my fellow researchers: Sr. Ayona, Anju Augustine, Aswathy Unnikrishnan, Anu K, Dr. Bindu M. S, Girija P, Jeena Abraham, Nithya O. K, Rino Laly Jose, Rohini Ashok, Sajini T, Savitha E. V, Sibi Joseph, Sooraj M. P, Dr. Smitha K. R, Subi Joseph, Dr. (Sr.) Gigimol M.G, Dr. Asha Chacko, Dr. Mercy Philip, Dr. Deepthi, K. P, Dr. Ansamma Thomas, Dr. Suma Bino Thomas and Dr. (Sr.) Annamma K. M. I take this opportunity to thank all my friends Christy Philip, Divya Mathew, Benny Thomas, Geethu Joseph, Hanna J. Maria, Visakh P. M. and Jini Varghese for their help and support. All the researchers from other research groups supported me in various ways. Space limitation prevents me from listing them all. Here I register my heartfelt gratitude to all of them.

The services of the staff of CEPCI laboratory, Kollam, STIC, CUSAT, and SAIF, IIT Mumbai are greatly acknowledged. Thanks are also due to Dr. G. Santhosh Kumar, School of Pure and Applied Physics for his help.

I am grateful to UGC for awarding me a teacher fellowship.

I am indebted to the manager and management of St. Mary’s College, Manaracad for their whole-hearted co-operation in completing this work.

I have great pleasure to express my sincere thanks to the Principal of our college for his help and support. All the teaching and non-teaching staff of my college had been highly encouraging and supportive throughout the tenure of this work. I appreciate all their help especially those of Prof. Bobby Abraham (former principal), Dr. Jiji Thomas, Dr. Sheela Chacko, and Prof. Mary Jacob. I am
grateful to all the members of chemistry department for their help and support. I am thankful to the former principals also.

I owe a special debt of gratitude to my husband Dr. Satheesh George and my children Steve and Shawn for their prayers, cooperation and encouragement throughout my study. Words are inadequate to express my gratitude to all the other family members for their encouragements and prayers.

I remember all the people who helped me in every possible way in completing this research.

My sincere thanks to Mr. Unni, Minitek Computers, Athirampuzha for his creative effort in giving final shape to this thesis.

Shiby Susan Kuriakose
