understanding through the period of this research work. My sister, Jayashree and brother, Anil provided good encouragement and support which truly facilitated this study. Dr. Alice M.J and Dr. Seetha Kakkoth, were always available for me as strong pillars of encouragement. I also remember those whom I lost to death during the period of this work - my father-in-law, aunt and uncle who used to encourage me.

Educational pursuit gets enriched with the guidance of good teachers. On this occasion I bow to all those teachers in my school and colleges who have inspired in me the spirit of academic vigour and scientific enquiry; particularly to my research supervisor, Dr. E. Sulaiman

Finally, all blessing in life has been with the Providence of the Almighty and this work is no exception for me. Thank you, God.
