CHAPTER II

ASPECTS OF ALUMINIUM CORROSION

2. Introduction 30
2.1 Corrosion of aluminium in alkaline solution 31
2.2 Surface Oxidation of Aluminium 32
2.3 Potential of an aluminium electrode 33
2.4 Reactions at an aluminium electrode 34
2.5 Suppression of self-corrosion 36
2.6 Zincate conversion coating 37
2.7 Alloying the aluminium 37
2.8 Merits of aluminium / air system 40
2.9 Electrochemistry of aluminium – air cells 41
2.10 The aluminium / air battery for vehicles 42

References 44

CHAPTER III

LITERATURE SURVEY AND SCOPE OF THE PRESENT WORK

Scope of the present work 57

References 59

CHAPTER IV

EXPERIMENTAL DETAILS

4.1 Preparation of aluminium / alloy and its characterization 66
4.2 Preparation of the battery electrolyte 67
4.3 Synthesis of corrosion inhibitors 67
4.4 Characterization of the compounds 68
4.5 Methods of evaluation of self-corrosion of aluminium / its alloy 83
4.6 Preparation of porous carbon electrode 92
4.7 Assembly of aluminium – air cell 92
References 94

CHAPTER V
RESULTS AND DISCUSSION

5.1 Studies on the corrosion behaviour of aluminium and some of its alloys 96
5.2 Effect of inhibitors on the corrosion behaviour of aluminium and its alloy in alkaline electrolyte 106
5.3 Studies on the application of the inhibitors to aluminium – air cell 166
References 175

CHAPTER VI
Conclusions 179
Scope for the future study 181
