BOOKS

Bruce, J.N., Physiology of Exercise and Sport, Times Mirror/Mosby College Publishing, St. Louis, Missouri, 1986.

Kuvalayananda, S., *Yoga Mimamsa*, Lonavla, Bombay, 1925.

**PERIODICALS**

Buono, M.J., Yeager, J.E., Increases In Aldosterone Precedes Those of Cortisol During Graded Exercise, San Diego State Heart Institute, CA.

Carney, C.M., *The Effects of Acute and Chronic Exercise on Serum Potassium in Hemodialysis Patients*, M.A, San Francisco State University, Fark Verducci, 1999.

Corral, D.P., Mahon, A.D., Duncan, G.E., Howe, C.A., and Craig, B.W., *The Effect of Exercise on Serum and Salivary Cortisol in Male Children*, Human Performance Laboratory, Ball State University, Muncie, IN 47306.

Lundberg, J.L., Effects Of Ingesting Protein With Various Forms of Carbohydrate Following Resistance Exercise on Substrate Availability and Markers of Catabolism, M.S., University of Memphis (Richard) Kreider, 68, 2000.

Migdadi, F., Exercise At Low Altitude (Jordan Valley) Causes Changes In Serum Levels Of ACTH, Insulin, Cortisol and Lactate, Endocrinology Research, No 22 (4) : 763 – 7, 1996.

Salcedo, P.D.C., *Serum and Salivary Cortisol Responses During Aerobic Exercise In Children*, Bell State University, 80, 1993.

Stupnicki, R., Obminski, Z., Klusiewicz, A., and Viru, A., *Serum Cortisol Concentration and Responses to Laboratory Exercise*, Department of Physiology, Institute of Sports, Warsaw, Poland.
