Preface and Acknowledgement

The present thesis is a humble attempt to study “Modeling and Analysis of Queueing systems with Discrete Autoregressive Arrivals and Counting Processes”. But for the unstinted and wholehearted support and assistance extended and rendered by innumerable personalities and institutions, this work could not have been undertaken and completed.

It is my first and foremost duty to express my profound sense of gratitude and indebtedness to my esteemed guide and supervisor Dr. K.K.Jose, Principal (formerly Reader and Head of the Research and Postgraduate Department of Statistics), St. Thomas College, Palai without whose support, valuable guidance and constant encouragement, this work would not have been accomplished. Despite his extremely busy schedule as Principal of the college, he managed to spend time to discuss the issues raised in this thesis. By observing him I have learned much about what it means to be a teacher and a researcher- and how one can bring honor to both professions. I have come to admire and respect his character, his zeal for teaching, and his natural manner of interacting unselfishly and generously with people of all kinds.

I would like to thank Dr.Krishnamoorthy, Professor, Dept. of Mathematics, Cochin University of Science and Technology, Cochin, Dr.Seethalekshmy V., Associate Professor, Dept. of Statistics, Nirmala College, Muvattupuzha and Dr. Sebastian George, Associate Professor, Dept. of Statistics, St. Thomas College, Palai for their valuable suggestions and help which gave a new dimension to this thesis.

I am grateful to all faculty members of the Department of Statistics, St.Thomas College, Palai for the encouragement and creative suggestions throughout the work and also for providing me a highly stimulating working environment where I had the opportunity to continue and expand my research. I am grateful to the Librarian and Office staff of St. Thomas College, Palai for their help and cooperation. I honestly acknowledge the help and affection extended to me by my fellow research scholars.

I am thankful to the University Grants Commission of India, for supporting my research through FIP. I record my respect and gratitude to my teachers at Nirmala College, Muvattupuzha and University
of Bangalore for developing interest for research in Statistics.

I owe a great deal to H. B. Baselios Thomas-I Catholicos (Chairman), H. G. Joseph Mor Gregorios Metropolitan (Manager) and Dr. Sunny Kuriakose (Principal) of Baselios Poulose II Catholicose college, Piravom, where I am presently employed, for their constant support and motivation. I remember with gratitude the encouraging and motivating words of Dr. Raju K. John and Dr. Shibu Simon, the former Principal of this college. I will always nurse in mind the encouragement extended to me in various ways by my colleagues at Baselios Poulose II Catholicose college, Piravom.

It is with deep sense of love and strong feelings of gratitude that I recall the encouragement and endurance so overwhelmingly expressed by my husband Tharthiose Paul at each and every stage of this work. He has been always with me as my strength and power. Words fail to express my appreciation to my daughters, Ashy, Aishwarya and Elizba for their love, co-operation, patience, whole hearted support and encouragement during this endeavour.

In completing this project work, I have had the blessings and prayers of my father Abraham (late) and mother Susy who lighted the spark of knowledge in my mind during the childhood days itself. I remember with gratitude the blessings and prayers of my father in law Very. Rev. Paulose Cor-episcoppa and mother in law Kunjamma who motivated and supported me in completing this project work. I also thank my brother Benny (late) and sister Beena and all relatives for their whole hearted support and encouragement during this endeavour.

Words are not sufficient to record the countless blessings that have been showered upon me by the Lord Almighty. His rod and his staff have always led and protected me; I raise my heart and bend my knees in gratitude to him.

Bindu Abraham
