4.8 Factor structure of competitive culture
4.9 t-test results: Perceived organisational culture vis a vis preferred organisational culture
4.10 Categorisation of person culture fit among respondents
4.11 Results of Canonical discriminant analysis of the culture factors among the cluster groups
4.12 ANOVA (ONE WAY) results on factorwise organisational culture differences among the cluster groups.
4.13 Mean score differences of the cluster groups on achievement culture factor
4.14 Mean score differences of the cluster groups on conventional culture factor
4.15 Mean score differences of the cluster groups on consensual factor
4.16 Cluster groupwise mean values and ranks for organisational culture factors
4.17 Inter correlation matrix between organisational culture factors
4.18 ANOVA (ONE WAY) results on the nexus between age and organisational culture
4.19 Mean score differences of age groupwise hierarchical culture factor
4.20 Mean score differences of age groupwise rational culture
4.21 Mean score differences of age groupwise competitive culture
4.22 Mean score differences of male and female samples with the organisational culture
4.23 ANOVA (ONE WAY) results on the nexus between qualification and organisational culture
4.24 Mean score differences of qualification wise hierarchical culture
4.25 Mean score differences of qualification wise consensual culture
4.26 ANOVA (ONE WAY) results on the nexus between hierarchical levels and organisational culture
4.27 Mean score differences of hierarchical levelwise humanistic culture 102
4.28 Mean score differences of hierarchical levelwise conventional culture 102
4.29 Mean score differences of hierarchical levelwise development culture 103
4.30 Mean score differences of hierarchical levelwise rational culture 103
4.31 Mean score differences of hierarchical levelwise consensual culture 104
4.32 Mean score differences of hierarchical levelwise competitive culture 104
4.33 ANOVA (ONE WAY) results on the nexus between level of experience and organisational culture 105
4.34 Mean score differences of experiencewise rational culture 107
4.35 Mean score differences of experiencewise conventional culture 108
4.36 Mean score differences of experiencewise competitive culture 109
4.37 ANOVA (ONE WAY) results on the nexus between earnings and organisational culture 110
4.38 Mean score differences of earning groupwise humanistic culture factor. 111
4.39 Mean score differences of earning groupwise hierarchical culture 112
4.40 Mean score differences of earning groupwise development culture 113
4.41 Mean score differences of earning groupwise rational culture 114
4.42 Mean score differences of earning groupwise competitive culture 115
4.43 Mean score differences of technical and non technical samples with the organisational culture 117
4.44 ANOVA (ONE WAY) results on the nexus between department and organisational culture 118
4.45 ANOVA (ONE WAY) results on the nexus between department and organisational culture 119
4.46 Mean score differences of unitwise hierarchical culture 120
4.47 Mean score differences of unitwise development culture 121
4.48 Mean score differences of unitwise rational culture 122
4.49 Mean score differences of unitwise consensual culture 123
4.50 Mean score differences of unitwise competitive culture 124
5.1 Mean values and ranks of cluster groups on organisational 128
commitment and attitude towards organisational change

5.2 ANOVA (ONE WAY) results on assessing organisational commitment and attitude towards organisational change among cluster groups

5.3 Mean score differences of the cluster groups on organisational commitment

5.4 Mean score differences of the cluster groups on attitude towards organisational change.

5.5 Correlation matrix between organisational culture factors and organisational commitment and attitude towards organisational change.

5.6 Results of multiple regression (stepwise) analysis of organisational culture factors on organisational commitment.

5.7 Results of multiple regression (stepwise) analysis of organisational culture on attitude towards organisational change.

5.8 Results of multiple regression (stepwise) analysis of organisational commitment on attitude towards organisational change.

5.9 ANOVA (ONE WAY) results on the nexus between age and organisational commitment and attitude towards organisational change.

5.10 Mean score differences of male and female samples with the organisational commitment and attitude towards organisational change.

5.11 ANOVA (ONE WAY) results on the nexus between qualification and organisational commitment and attitude towards organisational change.

5.12 Mean score differences of qualificationwise attitude towards organisational change.

5.13 ANOVA (ONE WAY) results on the nexus between hierarchical levels and organisational commitment and attitude towards organisational change.

5.14 Mean score differences of hierarchical levelwise
organisational commitment.

5.15 Mean score differences of hierarchical levelwise attitude towards organisational change.

5.16 ANOVA (ONE WAY) results on the nexus between tenure level and organisational commitment and attitude towards organisational change.

5.17 ANOVA (ONE WAY) results on the nexus between earning pattern and organisational commitment and attitude towards organisational change.

5.18 Mean score differences of earning groupwise attitude towards organisational change.

5.19 Mean score differences of technical and non technical samples with the organisational commitment and attitude towards organisational change.

5.20 ANOVA (ONE WAY) results on the nexus between department and organisational commitment and attitude towards organisational change.

5.21 ANOVA (ONE WAY) results on the nexus between the unitwise responses and organisational commitment and attitude towards organisational change.

5.22 Mean score differences of unitwise organisational commitment.

5.23 Mean score differences of unitwise attitude towards organisational change.
