ACKNOWLEDGEMENT

It gives me immense pleasure to express my deep sense of gratitude to Dr. G. R. Singh, Department of Agricultural Chemistry, Ch. Chhotu Ram (P.G.) College, Muzaffarnagar (U.P.) for the valuable and painstaking guidance, constructive criticism, constant inspiration and encouragement during the course of investigation and preparation of the manuscript of this thesis.

My sincere thanks are due to Dr. N. K. Pruthi, Reader and Head, Dr. R. V. S. Malik, Dr. Sanjoev Kumar and Dr. Navneet Kumar, Department of Agricultural Chemistry; Prof. K. P. Singh (Math) and Dr. Arun Kumar (Reader, Plant Pathology) Ch. Chhotu Ram (P.G.) College, Muzaffarnagar for their timely and precious suggestions.

I passionately express my gratitude to the Principal, Dr. N. K. Malik, Ch. Chhotu Ram (P.G.) College for providing necessary facilities of soil analysis during the course of study.

I could complete this great task due to instigating, encouraging and perennial help of Dr. C. S. Raghav, Principal Director F.F.D.C Makrand Nagar, Kannauj (U.P.) and Dr. Naveen Kalara (Head, Division of Agricultural Physics) IARI, New Delhi for necessary guidance and precious suggestions in the investigation.

I am highly indebted to my father Sh. Tek Chand and my mother Smt. Amarwati Devi for inspiration, encouragement and providing all kind of support for my studies.
I am greatly conscious with bottom of heat to express my gratitude and debtness to my friends Mrs. Suman Choudhary, Mr. Vinod Kumar, Mr. Virender Singh, Mr. Vishal Khajuria and computer operator Mr. Neeraj Kumar.

My diction is too poor to translate my gratitude into words the love and affection, encouragement and moral support I received from my brothers Mr. Ajay Kumar and Mr. Vijay Singh and my wife Mrs. Sushila for their love, blessing and continuous inspiration during this study.

(Sanjay Kumar)
