ACKNOWLEDGEMENTS

I consider myself fortunate to have done this research under the guidance of Dr. Punnen Kurian, Research Guide, Tropical Institute of Ecological Science and Principal, St. Mary’s College, Manarcadu, Kottayam. It gives me great pleasure to record my profound gratitude and indebtedness for his intellectual guidance, constant encouragement and scrutiny of work at every stage, which paved the way for the genesis of this thesis.

I am beholden to Dr. A. P. Thomas (Former Professor & Director, School of Environmental Sciences, M. G University) for his all time valuable advice, care and encouragement and support. I am also extremely thankful to him for his scientific and constructive suggestions, criticism, help and encouragement ever since the very inception of the study.

I convey my in depth gratitude to Prof. Ipe Mathew (Director, Tropical Institute of Ecological Science), Dr. Abraham Samuel and Dr. Nelson Abraham for providing me the necessary support during all through this project. I express my sincere thanks to all other board of directors of Tropical Institute of Ecological Sciences also.

I am extremely grateful to Dr. E.V. Ramasamy (Associate Professor, School of Environmental Sciences, M.G University) for providing the facilities in soil chemistry lab and encouragement during the work. I express my heartfelt thanks and deep sense of gratitude to Dr. John C. Mathew (Assistant Professor, Dr. R. Satheesh Centre for Geoinformatics, M. G University) for providing technical expertise in geoinformatics.

I express my deep sense of gratitude and respect to Dr. Jacob Thomas IPS, Dr. Ajayakumar Varma Dr. Rajesh Regunath and Dr. Prasanna Kumar for their encouragement, kind advice and care.

I am also extremely thankful to Department of Forest and wildlife, Govt. of Kerala for giving me field work permission inside forest and I, gratefully
acknowledge all the forest officials who provide me logistic support during the field work. I am indebted to Mr. Ayyappan Kani and Mr. Mohanan for their field support during sampling work.

I am thankful to all the faculties members and research scholars of School of Environmental Sciences, M. G University and my deep sense of gratitude towards Dr. Jobin Thomas, Dr. Subin K. Jose, Dr. Rameshan M, Dr. Joby Paul, Dr. Sreedharan K, Dr. Rekha V. B, Mrs. Roshni Susan Elias, Mr. Manual Thomas, Mr. Rinoy Varghese, Mr. Shathru Mithra, Mr. Abdul Shukkur, Mr. Justin Prakash, Mr. Jino Thomas for their constant encouragement, co-operation and support during the entire course research.

Always remain deep in my heart, the support given by my parents, wife, my little daughter, sister and other family members and god almighty throughout the work and for their love and continuous spiritual and material support and being with me in all pains and gains.

I take this opportunity to sincerely acknowledge Kerala State Council for Science, Technology and Environment (KSCSTE), Thiruvananthapuram for awarding KSCSTE Research Fellowship- 2008 for doing the Ph. D programme, which buttressed me to perform my research.

In the course of my work, I came across with several great personalities and wonderful people who directly or indirectly involved in my work without any hesitation. I am very much indebted to all of them and hereby bowing my head to them and giving a great “thank you” for all of you from the bottom of my heart for being them for me.
