1. **Chapter I: Introduction**..............................................................1-26

1.1 Background of the study...............................................................1

1.1.1 Internet.........................................................................................8

1.1.2 E-learning......................................................................................9

1.1.3 Open Educational Resources in digital form..............................10

1.1.4 Electronic Book............................................................................11

1.1.5 Internet Radio / Web Radio ......................................................12

1.1.6 Audio/ Audio-visual Materials..................................................12

1.1.7 Social Networking ......................................................................13

1.1.8 Online Discussion Forums.........................................................14

1.1.9 Mobile phones / Mobile devices.................................................15

1.1.10 Digital Library...........................................................................16

1.2 Statement of the Problem...............................................................17

1.3 Social Significance of the study...................................................19

1.4 Objectives of the study.................................................................21

1.5 Outline of the Thesis......................................................................22

2. **Chapter II: Literature Review**.......................................................27-42

2.1 Introduction.......................................................................................27

2.1.1 Distance Education.......................................................................27

2.1.2 New Media Technologies............................................................30
2.1.3 Media Technologies in Distance Education.................................32

3. Chapter III: Research Design - Data and Methods.........................43-79

3.1 Conceptual Framework..........................................................43
  3.1.1 Concept of New Media......................................................43
  3.1.2 Concept of Distance Education..........................................47

3.2 Theoretical Background..................................................................50

3.3 Research Variables.................................................................54

3.4 Research Questions......................................................................55

3.5 Research Methodology.............................................................56
  3.5.1 Research Approach..............................................................56
  3.5.2 Research Methods...............................................................57
  3.5.3 Selection of Research Locations.............................................59
    3.5.3.1 Selection of research location for field study of ODL learners.................................................................59
    3.5.3.2 Selection of ODL Institutions / University locations........61
  3.5.4 Sampling Design and Sampling procedure..............................62
  3.5.5 Tools and Techniques of Data Collection..................................66
    3.5.5.1 Interview schedule for In-depth Interviews .....................67
    3.5.5.2 Questionnaire for field study of Distance learners ..........67
    3.5.5.3 Focus Group Discussion................................................68
    3.5.4.4 Tools and Techniques for Secondary data collection .....69
  3.5.6 Pilot Research........................................................................70
  3.5.7 Methods of Data Analysis....................................................70
    3.5.7.1 Analysis of Data collected by Questionnaire....................71
    3.5.7.2 Analysis of Data collected by Personal Interview ............71
    3.5.7.3 Analysis of Data collected by Focus Group Discussion.....71
    3.5.7.4 Analysis of Secondary Data..........................................71
  3.5.8 Statistical Tools Used in this Study........................................71
    3.5.8.1 Frequency and Percentage ............................................72
    3.5.8.2 Contingency table and Chi-squared test........................72
    3.5.8.3 Principal Component Analysis.......................................73
    3.5.8.4 Cronbach's Alpha test for scale-reliability....................74
    3.5.8.5 One-way ANOVA.........................................................74
3.5.8.6 Omega Squared for Effect Size Calculation……………75

4. Chapter IV: Use of New Media Technology by Distance Learners………80

4.1 Introduction……………………………………………………………………………80

4.2 Empirical analysis of personal profile based on primary survey……………81

  4.2.1 Classification of Learners according to Location ……………………81
  4.2.2 Classification of Learners according to Gender ……………………82
  4.2.3 Classification of Learners according to Education …………………83
  4.2.4 Classification of Learners according to Employment /
                  working status……………………………………………………………..84
  4.2.5 Classification of Learners according to Age………………………84
  4.2.6 Classification according to location of use of new media
                  technologies ………………………………………………………………..85
  4.2.7 Classification according to learners’ motivation towards
                  using new media technologies…………………………………………86
  4.2.8 Classification according to learners’ preference for
                  distance mode of education………………………………………………87

4.3 Pattern of use of new media technology (NMT) tools by the learners ……..88

  4.3.1 Use of multimedia study materials by learners…………………89
   4.3.1.1 Use of multimedia study materials according to
                     nature of location…………………………………………………………89
   4.3.1.2 Use of multimedia study materials according to gender………90
   4.3.1.3 Use of multimedia study materials according
                     to age-groups……………………………………………………………..92
   4.3.1.4 Use of multimedia study materials according to
                     level of education……………………………………………………………..93
   4.3.1.5 Use of multimedia study materials according to
                     learners’ preference for distance mode of education ………94
  4.3.1.6 Use of multimedia study materials according to learners’
                  motivation towards using new media technologies………96
  4.3.1.7 Use of multimedia study materials according to
                  learners’ status of employment/working status………………97

  4.3.2 Use of e-Jnan Taranga (Internet-radio of KKHSOU) by learners…99
   4.3.2.1. Use of e-Jnan Taranga according to nature of location…..99
4.3.2.2 Use of e-Jnan Taranga according to gender .................. 100
4.3.2.3 Use of e-Jnan Taranga according to age-groups ............. 101
4.3.2.4 Use of e-Jnan Taranga according to level of education .... 103
4.3.2.5 Use of e-Jnan Taranga according to learners’ preference for distance mode of education .................. 104
4.3.2.6 Pattern of use of e-Jnan Taranga according to learners’ motivation towards using new media technologies ....... 105
4.3.2.7 Use of e-Jnan Taranga according to income status ........ 106
4.3.3 Use of audio-video learning materials on university website / ‘You tube’ .......................................................... 108
4.3.3.1 Use of audio-video learning materials according to location ......................................................... 108
4.3.3.2 Association between audio-video learning materials and gender ......................................................... 109
4.3.3.3 Use of audio-video learning materials according to age group ......................................................... 110
4.3.3.4 Use of audio-video learning materials according to level of education ................................................. 112
4.3.3.5 Use of audio-video learning materials according to learners’ preference for distance mode of education .... 113
4.3.3.6 Use of audio-video learning materials according to learners’ motivation towards using new media technology 115
4.3.3.7 Use of audio-video learning materials according to status of employment ......................................... 116
4.3.4 Use of e-Bidya (e-portal of KKHSOU) by the learners ........ 118
4.3.4.1 Pattern of use of e-Bidya according to nature of location .. 118
4.3.4.2 Use of e-bidya according to gender .......................... 119
4.3.4.3 Use of e-bidya according to age-groups ....................... 120
4.3.4.5 Use of e-bidya according to learners’ preference for distance mode of education ............................. 122
4.3.4.6 Use of e-bidya according to learners’ motivation towards using new media technologies .................. 123
4.3.4.7 Use of e-bidya according to status of employment/working status ...................................................... 124
4.3.5. Use of the online study materials by the learners

4.3.5.1 Use of online study materials according to nature of location

4.3.5.2 Use of online study materials according to gender

4.3.5.3 Use of online study materials according to age-groups

4.3.5.4 Use of online study materials according to educational level

4.3.5.5 Use of online study materials according to learners’ preference for distance mode of education

4.3.5.6 Pattern of use of online study materials according to learners’ motivation towards using new media technologies

4.3.5.7 Pattern of use of online study materials according to employment status

4.3.6 Use of digital library service

4.3.6.1 Pattern of use of ‘digital library’ according to nature of location

4.3.6.2 Pattern of use of ‘digital library’ according to gender

4.3.6.3 Pattern of use of ‘digital library’ according to age groups

4.3.6.4 Pattern of use of ‘digital library’ according to level of education

4.3.6.5 Pattern of use of ‘digital library’ according to learners’ preference for distance mode of education

4.3.6.6 Use of ‘digital library’ according to learners’ motivation towards using new media technologies

4.3.6.7 Pattern of use of ‘digital library’ according to status of employment/working status of learners

4.3.7. Use of assignments from website

4.3.7.1 Pattern of use of ‘assignments from website’ according to nature of location

4.3.7.2 Pattern of use of assignments from website according to gender
4.3.7.3 Pattern of use of ‘assignments from website’ according to age-group ................................................................149
4.3.7.4 Pattern of use of ‘assignments from website’ according to level of education..................................................150
4.3.7.5 Pattern of use of assignments from website according to learners’ preference for distance mode of education..................................................151
4.3.7.6 Pattern of use of assignments from website according to learners’ motivation towards using new media technologies..................................................153
4.3.7.7 Pattern of use of assignments from website according to employment/working status ..................154

4.3.8 Use of ‘Smart KKHSOU’ android application........................155
4.3.8.1 Pattern of use of Smart KKHSOU android app according to nature of location .................................156
4.3.8.2 Pattern of use of Smart KKHSOU android app according to gender ..............................................157
4.3.8.3 Pattern of use of Smart KKHSOU android app according to age-groups ..............................................158
4.3.8.4 Pattern of use of smart KKHSOU android app according to learners’ level of education ......................160
4.3.8.5 Pattern of use of smart KKHSOU android app according to learners’ preference of distance mode of education ..................................................161
4.3.8.6 Pattern of use of smart KKHSOU android app according to learners’ motivation towards using new media technologies ..................................................162
4.3.8.7 Pattern of use of smart KKHSOU android app according to learners’ status of employment ...........164

4.3.9. Use of social networking (Facebook group of KKHSOU) by the learners...165
4.3.9.1 Use of social networking according to nature of location…166
4.3.9.2 Pattern of use of social networking (Facebook) according to gender..................................................167
4.3.9.3 Pattern of use of social networking site (*Facebook*)
according to age-groups........................................169
4.3.9.4 Pattern of use of social networking according to
learners’ level of education........................................170
4.3.9.5 Pattern of use of social networking according to
learners’ preference for distance mode of education ......171
4.3.9.6 Pattern of use of social networking according to
learners’ motivation towards using new media
technologies..........................................................173
4.3.9.7 Pattern of use of social networking according to
learners’ employment status.......................................174
4.3.10 Use of job portal..................................................175
4.3.10.1 Use of job portal according to nature of location ......176
4.3.10.2 Pattern of use of KKHSOU job portal according
to gender.................................................................177
4.3.10.3 Pattern of use of job portal according to age-group......178
4.3.10.4 Pattern of use of job portal according to learners’
level of education......................................................180
4.3.10.5 Pattern of use of job portal according to learners’
preference for distance mode of education...............181
4.3.10.6 Pattern of use of KKHSOU job portal according to
learners’ motivation towards using new
media technologies....................................................182
4.3.10.7 Pattern of use of job portal according to learners’
status of employment...............................................184

4.4. General opinion of learners on use of new media technology........185
4.4.1 Satisfaction on the use of new media technologies........185
4.4.2 Help from new media technologies in clarifying
misunderstandings /doubts ........................................186
4.4.3 Help from study centre........................................186
4.4.4 Help from new media technology in providing additional
information...............................................................187
4.4.5 Help from new media technology as a supplement to print study materials………………………………………………………188

4.4.6 Help from new media technologies in improvement of learning skill……………………………………………………………188

4.5. Interpretation of the analysis of the use of new media technology………189

4.5.1 Pattern of use of new media technology by learners ……………189
  4.5.1.1 Multimedia study materials……………………………………………………189
  4.5.1.2 Internet radio (e-Jnan Taranga)…………………………………………..191
  4.5.1.3 Audio-video learning materials on website/ YouTube………..191
  4.5.1.4 E-portal (E-Bidya)…………………………………………………………192
  4.5.1.5 Online study materials …………………………………………………193
  4.5.1.6 Digital library service …………………………………………………..193
  4.5.1.7 Assignments from website ……………………………………………..194
  4.5.1.8 Android app………………………………………………………………195
  4.5.1.9 Social networking ………………………………………………………195
  4.5.1.10 Job Portal …………………………………………………………………196

4.5.2. Benefits of using new media technology by the learners………..196

5. Chapter V: Problems of Using New Media Technology…………………198

5.1 Introduction ………………………………………………………………………..198

5.2. Problems faced by the learners with the use of New Media Technologies…..198
  5.2.1 Principal Component Analysis (Factor Analysis)…………………199
  5.2.2 Labeling of factors……………………………………………………………………206
  5.2.3 Reliability analysis of factor scales …………………………………………207
  5.2.4 Difference in problems among the sub-groups of independent variables…………………………………………………………………………209
    5.2.4.1 Effect of location…………………………………………………………210
    5.2.4.2 Effect of gender…………………………………………………………211
    5.2.4.3 Effect of level of education…………………………………………212
    5.2.4.4 Effect of status of employment………………………………………212
    5.2.4.5 Effect of situation of use of New Media Technology……….212
    5.2.4.6 Effect of learners’ motivation towards using New Media Technology…………………………………………………………………213
5.2.2.7 Effect of Learners’ Preference for Distance Mode of Education ...........................................214

5.3 Focus Group Discussions ........................................................................................................216
  5.3.1 Selecting Focus Group and participants ....................................................................217
  5.3.2 Procedure for data analysis of Focus Group discussions .....................................220
  5.3.3 Analysis of Focus Group discussions .....................................................................221

5.4. Comparison among the selected distance learning institutions on the use New Media Technologies ........................................................226
  5.4.1 Web-portal ..................................................................................................................227
  5.4.2 Audio-video learning materials ..............................................................................230
  5.4.3 Web-radio ................................................................................................................231
  5.4.4 Blog/Job-portal ........................................................................................................232
  5.4.5 Digital Library ..........................................................................................................232
  5.4.6 Social networking ......................................................................................................233
  5.4.8 Mobile Learning .......................................................................................................234
  5.4.9 Other technologies ..................................................................................................235

6. Chapter VI: Summary and Conclusion ..............................................................................239-252

Bibliography ..............................................................................................................................253-269

Appendix: I SPSS output of various statistical analysis .........................................................270-292

Appendix: II Questionnaire ......................................................................................................293-296
