Acknowledgement

I sincerely thank my guide Dr. P. Varalakshmi, Professor and Head, Department of Medical Biochemistry, Dr. A.L.M. Post-Graduate Institute of Basic Medical Sciences, University of Madras, Chennai, for her remarkable and inspiring guidance, valuable suggestions and whole-hearted encouragement throughout the course of my research work.

I am grateful to my doctoral committee members, Dr. R. Puvana Krishnan, Department of Biotechnology, C.L.R.I., Adyar and Dr. P. Kalaiselvi, Lecturer, Department of Medical Biochemistry, for their expert advice and constant encouragement during the course of my study.

I extend my profound thanks to Dr. C. Panneerselvam, Dr. D. Sakthiasekaran and Dr. P. Sachidanandam, Professors, Dr. T. Sumathi, Lecturer, Department of Medical Biochemistry, Dr. A.L.M. Post-Graduate Institute of Basic Medical Sciences, University of Madras, Chennai, for their constant support during my study.

I am deeply indebted to Dr. M. Parthiban, Assistant Professor, Department of Animal Biotechnology, Tamil Nadu Veterinary and Animal Sciences University, for providing me with cell culture facilities. I am grateful to Ms. Vidhya Nair who helped me immensely during my cell culture experiments. I am also thankful to Dr. G. Dinakaran, Professor, Dr. A. Rajes, Professor, Department of Animal Biotechnology, Tamil Nadu Veterinary and Animal Sciences University for analyzing the flow cytometric samples.

I warmly thank Ms. A. Josephine for her support during moments of successes and disappointments in my career. Her positive attitude and commitment to this work were of great importance during my tenure.

I am extremely grateful to Dr. M. Michael Aruldhas, Professor and Head, Department of Endocrinology, Dr. A.L.M. Post Graduate Institute of Basic Medical Sciences, University of Madras, Chennai, for allowing me to carry out the densitometric analysis of agarose gels and Dr. P. Ramamoorthy, Professor and Head, National Centre for Ultrafast studies, University of Madras, Chennai, for permitting me to carryout confocal
microscopic studies. I am also thankful to Dr. N. Narayana Kalkura, Professor, Department of crystallography, Anna University, for permitting me to use polarized microscope.

Words would not express my gratitude to my seniors Dr. E. Selvakuamr and Mr. V. Sudhakar, who have patiently answered my curious questions during the course of my study and helped me submit this thesis. I am also grateful to my seniors Dr. C. Prabhalathan, Dr. S. Ashok Kumar, Dr. P. T. Sudharshan, Dr. V. Mythili, Mrs. A. Rajeswari, Ms. G. Amudha who have helped me immensely during the course of my study.

I am thankful to Mr. C. Elango, Dr. M. Faroog, Dr. V. Pragasam, Dr. S. Srinivasan for their help in literature collection.

My heartfelt thanks to Dr. R. Sundarapandiyen and Dr. N. G. Rajesh, Department of Pathology, Dr. A.L.M. Post-Graduate Institute of Basic Medical Sciences, University of Madras, Chennai, for their expert advice in histopathological and immunohistochemical studies.

My heartfelt thanks to my friends Mr. K. Sivarajan, Mr. R. Devaraj, Ms Jyothi, Mrs Arulmathi, Ms Srividhaya, Mr. M. Bala, Mr. G. Murali, Mr. G. Eknambaram, Mr. R. Muthuvel, Mr. S. Arul Kumar, Mrs E. Jayasudha, Ms. D. Gunadhara, Ms. K. Annapoorna, Ms. L. Sheerinbamu, for their help and support delivered throughout my research work. I appreciate the support and encouragement from all other friends of various departments, who made my work enjoyable.

I extend my profound thanks to Mr. S. Sekshinamurthi and other staff members, Department of Medical Biochemistry, Dr. A.L.M. Post Graduate Institute of Basic Medical Sciences, University of Madras, Chennai, for their valuable assistance offered during my research work.

I shall be failing in my duty if I do not thank my beloved family members for their support and encouragement towards the successful achievement of my study.

The financial assistance in the form of Senior Research Fellowship awarded by Indian Council of Agricultural Research, New Delhi is gratefully acknowledged.

(C. K. Veena)
