ACKNOWLEDGEMENTS

I am deeply indebted to my mentor and guide Prof. R. Maya Sundari, Department of Genetics, Dr. A. L. M. Post Graduate Institute of Basic Medical Sciences, University of Madras, Taramani, Madras - 600 113 for her constant encouragement through immeasurable guidance, valuable suggestions, inspiring discussions and unstinted support without which it would not have been possible for me to submit this thesis. I express my deep sense of gratitude for the continuous moral support and affection given during the moments of stress and strain and I shall cherish the memorable period of association with her.

My grateful thanks to Prof. P. M. Gopinath, Head, Department of Genetics, Dr. A. L. M. Post Graduate Institute of Basic Medical Sciences, University of Madras, Taramani, Madras - 600 113 for giving me an opportunity to work in the department and providing me with all the necessary facilities and his encouragement.
I wish to thank the past and the present directors, Dr. A. N. M. Post Graduate Institute of Basic Medical Sciences, University of Madras for providing me the facilities at the institute.

I express my sincere thanks to Prof. P. Govindanajulu, Prof. Michael Aruldas, Dr. K. Balasubramaniam and Dr. Arunakaran, Department of Endocrinology for allowing me to use their instruments.

My heartful thanks are due to Dr. V. V. Giridhar, CECRI, CSIR Complex, Taramani, Madras-113 and Dr. A. K. Mishra, Department of Chemistry, Indian Institute of Technology, Madras-32 for permitting me to use their instrument (spectrofluorimeter).

I am grateful to Dr. Premalakshminarayana, Dr. T. Jagatheesan, Dr. Chandralekha and Dr. Kalpana of Institute of Obstetrics and Gynecology, Egmore, Madras, Dr. Vedavathy, Dr. Andal and Dr. Sarala Rajaji of Child Trust Hospital, Nungambakkam, Madras, Dr. P. Mohandas of Railway Hospitals, Perambur, Madras, Dr. V. G. Rajan of Institute of Social Pediatrics, Stanley Medical College, Madras and Dr. Prema of Kasturba Government Hospital, Triplicane, Madras for kindly referring the patients.

My heartful thanks are due to Dr. Paula and Gospel Vision Ministry, Tambaram, Madras for providing me the facilities to collect the samples from normal children. I also thank my friends who had volunteered their blood samples.

I express my thanks to the patients and their family members who have extended their cooperation to me.
My thanks are also due to all the staff members of the Department of Genetics for their help and cooperation.

I would like to thank Mr.P.Ester Raj Solomon for the technical assistance, and Mr.J.D.Thangaraj for photographic assistance.

I extend my sincere gratitude to my colleagues Dr.K.S.N.Rani, Dr.Usha, Ms.S.Priya, Mr.K.Mahalingam, Mr.Sumit Rose and Ms.Uma Meenakshi, Department of Genetics, Dr.ALMPIBMS, Taramani, Madras-113.

I would also like to express my thanks to Mr.M.Sekar, Dr.V.Gopalakrishnan, Dr.V.Srikanth from our institute.

I would like to extend my thanks to all the members of the non-teaching and technical staff, Department of Genetics, Dr.ALMPIBMS for their timely help.

It is my pleasure to thank my family members for their patience and encouragement throughout and I owe them a lot.

I acknowledge the Council of Scientific and Industrial Research, India for the financial support rendered in the form of Junior and Senior Research Fellowship.

I also like to thank M/s.Students Computer Centre, Adyar, Madras for the typographical help rendered in preparing this thesis.
