ACKNOWLEDGMENTS

I take this opportunity to thank Dr. W. K. Panikkar, Fisheries Development Adviser, Government of India (formerly Chief Research Officer at the Central Marine Fisheries Research Station) for the continued interest he evinced in this work and for constant and unfailing encouragement throughout the course of this work. In spite of his other preoccupations, he found time to go through the manuscript in detail, suggesting improvements and giving the thesis its present shape for which I am most grateful to him. I am indebted to Dr. S. Jones, the present Chief Research Officer, for extending to me all the facilities unreservedly during the final phases of this work. My grateful acknowledgment is recorded to the Ministry of Education, Government of India, for the award of a Senior Research Scholarship which has enabled me to complete this work. I record my deep sense of gratitude to Miss Nora C. Sp斯顿 who had, during her brief stay in this department, given unselfishly of her time and had contributed towards the formulation of my ideas by thought provoking discussions based on her wide and familiar knowledge of this field. To Dr. S. V. Job, of this Station, I owe a special debt of gratitude for his willing help at all times and specially for the constructive criticism of
the paper and for useful suggestions. I am grateful to my colleague Shri K. Krishna Rao for his help in the statistical analysis of the data. My thanks are due to Shri K. G. Nambiar, the Artist-Photographer.

'Lastly my thanks are due to all friends at the Central Marine Fisheries Research Station for their co-operation and help.
