ACKNOWLEDGEMENT

First and foremost I would like to thank the Lord Almighty for showering abundant blessings upon me to carry out this research work.

There are numerous people who have supported, directed, assisted and encouraged me for the completion of this research work.

No words could express my heartfelt thanks to my honest and hardworking supervisor Dr. V. Sadasivam, Former Professor and Head, Department of Computer Science and Engineering, Manonmaniam Sundaranar University, Tirunelveli who accepted me as one of his Ph.D scholars without any hesitation when I presented him my research proposal. His valuable guidance and advice from time to time were instrumental in completion of this research work. Furthermore he spent his precious time to read this thesis and gave his critical comments about it. He never compromised in the honesty or quality of this thesis. I will never forget his encouragement and effective supervision.

‘Texture Analysis’ is the area of this research work and this dissertation has its roots planted in 2008 when I did my Master degree. I am exclusively thankful to Dr. A. Suruliandi, Professor, Department of Computer Science and Engineering, Manonmaniam Sundaranar University, Tirunelveli for shedding light on ‘Texture Analysis’ during my Master’s degree project. I owe no end of
thanks to him for his generous support, motivation and intellectual suggestions throughout this work.

I gratefully express my sincere thanks to Dr. K. Baskar, Vice-Chancellor, Manonmaniam Sundaranar University, Tirunelveli for providing the conducive atmosphere to do the research work.

I am very much thankful to Dr. R. Balasubramanian, Professor and Head, Department of Computer Science and Engineering, Manonmaniam Sundaranar University, Tirunelveli for his moral support and constructive ideas.

It is a pleasure to express my thanks whole heartedly to the Research Coordinator of Manonmaniam Sundaranar University, Dr. R. Maruthakutti as well as the staff members of the Research section for their timely help in various occasions during my research work.

I would like to thank Dr. R. S. Rajesh, Professor, Department of Computer Science and Engineering, Dr. D. Murugan, Associate Professor, Department of Computer Science and Engineering, Dr. P. Arockia Jansi Rani, Assistant Professor, Department of Computer Science and Engineering and Mrs. V. Subha, Assistant Professor, Department of Computer Science and Engineering of Manonmaniam Sundaranar University, Tirunelveli for their genuine support and encouragement.

I gratefully thank Mrs. G. Muthulakshmi, Assistant Professor, Department of Computer Science and Engineering, Manonmaniam Sundaranar
University, Tirunelveli for their timely help for the successful completion of this thesis.

I whole heartedly thank Dr. M. Sivapragash, Director-Research, Noorul Islam University, Nagercoil, who gave me the initial advices and recommendations for starting a doctoral study.

Many thanks to Dr. S. Suresh Kumar, Principal, Vivekanandha College of Engineering for Women(Autonomous), Tiruchengode for his unconditional support throughout the period of this research.

My heartfelt thanks go to my well wisher Dr. V. Balamurugan, Dean-Curriculum Development, AMET University, Chennai for showing me the path towards the research.

I owe a deep sense of gratitude to my dear friend Dr. P. Balamurugan, Associate Professor, Department of Computer Science and Engineering, K.S.R. College of Engineering (autonomous), Tiruchengode for his moral support and motivation without which it might not be possible to complete this research work.

I express my profound gratitude to my beloved friend Dr. P. Eswaran, Assistant Professor, Department of Computer Science and Engineering, Alagappa University, Karaikudi for his constant encouragement and support.

I thank all the Faculty members and administrative staff of the Department of Computer Science and Engineering, Manonmaniam Sundaranar University for their help, encouragement, support and cooperation. Also, my
sincere thanks go to all the Research scholars of the Department of Computer Science and Engineering.

I wish to express my love and affectionate thanks to my wife N. G. Malathy who stood beside me and encouraged me constantly. Last but not least, I would like to thank my sons G. M. Anush Piriyah Ghanesh and G. M. Abhijith Kumar for their sincere prayers, love, concern, help and sacrifice without which this work could not have been completed.

On a more personal level, there are several people who deserve acknowledgement. To all others whom I have not mentioned, but would have been a stepping stone in my path, I submit my sincere thanks. I offer my regards to all of those who supported me directly or indirectly during the entire tenure of this research for successfully completing this work.

G. Madasamy Raja
