Acknowledgements

Words cannot express my deepest thankfulness to the Almighty, whose divine guidance has enabled me to get my thesis through.

Even though the words could not fulfill the gratitude towards all the supporters who contributed their efforts for my research work, I would like to take this opportunity to share my heartfelt thanks to all, without whose help and support this thesis would ever have been possible. The discussions, encouragement, suggestions and critiques made by them were the essence of this work.

Words cannot express my sincere gratitude towards my mentor, Prof. (Dr) Padma Nambisan, for giving me an opportunity to do research in her lab and for her excellent supervision during my research work. I would like to thank you for encouraging my research, for her patience, motivation, and immense knowledge. Your advice on both research as well as on my career have been priceless. Her guidance helped me in all the time of research and writing of this thesis.

Besides my advisor, I would like to thank Prof. (Dr) Sarita G Bhat, for her insightful comments and encouragement during my doctoral committee presentations, but also for the hard questions which incepted me to widen my research from various perspectives.

I express my deep sense of gratitude to (late) Dr. C.S. Paulose for his support and motivation during my research. I would also like to thank him for providing me an opportunity to join this department as guest lecturer which served as a stepping stone to my research carrier. I am thankful to Dr. M. Chandrasekaran for many discussions that helped me a lot in staying at the right track during my research period.

I express my gratitude to Dr. Ammini joseph, Dr. E. Vijayan and Dr. Elyas. K.K, for their valuable suggestions during their visits to this department. I am thankful to Dr. P.M Sherief for his help and support to clear my doubts in my proteomics studies. I greatly acknowledge Dr. T.V. Sankar, CIFT, Ernakulam, for his valuable suggestion during my SRF assessment. I thank all the teachers of my school days, graduation and post-graduation for laying my foundation.

I am thankful to Cochin University of science and Technology for providing me the financial support in the form of junior research fellowship and senior research fellowship. I thank all the former and present office staffs in our department and administrative staffs in the university main office for their encouragement during these days of my research.
I am deeply indebted to Ms. Kiran Lakshmi, my sweet kuru, for lending me a helping hand in times of need and being on my side at all times, which gave me strength and courage to move on and successfully accomplish this piece of work. I was lucky to be a part of plant biotechnology lab, a place where I got very special people like jikku chechy, jasmine chechy, Sudha, Arinnia, Anala, Nayana (my nayu), aiswarya (aisu), Anuja (kunfa) and Soumya. All of them were very friendly and can be asked for any help at any time with a feeling of oneness and unity. They became great friends with my son vasu, who loves them a lot. Thank you all for being my vasu’s favourites. I thank all of them for the joyful moments, moreover that the great friendship they shared with me. Special thanks to Arinnia for helping me in my bioinformatics portion. Without her help and support this thesis would ever have been possible.

I also extend my gratitude to Akhilraj, Johnson, Saranya and Vipin Sekhar my trainees for their hardwork during their training period, especially during my application studies. Really I enjoyed a lot with them. More over me and vasu got two lovely brothers Akhil and Vipin.

I would like to extend my sincere gratitude to Rakesh ettan, Department of Chemistry, CUSAT and Mr. Saravanan, RGCB, Trivandrum for their technical support during my enzyme characterization studies. The technical support obtained from the staffs in the Sophisticated Instrumentation and Testing Centre, CUSAT helped me a lot to complete my research work in time.

I remember with affection and gratitude the happy moments during lunch time with my seniors Sijuchettan, Vijaya miss, Sapna chechi, Manzur sir, Raghul chettan, Cikeshettan, Linda, Jeena, Smitha, Helvin chechy, Rekha, Harisree and Mridu da. I thank them all for their advices, help and support showered on me. The great friendship, experiences and thoughts we shared are more valuable in my future endeavours.

My sincere thanks to my teacher Dr. Roselin Alex who introduced me to this department and hold my hands to step in to my research carrier. Then my Bindiya miss, who is my teacher of all times. I met her during my graduation as a cute, friendly teacher. Here in CUSAT also she was with me to clear all my doubts. All the time when I was struck with problems in my experiments, she was there to correct and guide me with a smile, through the right track. Thank you so much for being my wonderful teacher and well wisher. Special thanks for her sleepless nights during my thesis proof reading.

My heartfelt thanks to my senior collegues of Biotechnology department, Dr. Soorej M Basheer, Dr. K. Jayachandran, Dr. Beena P.S. and Dr. Abraham Mathew for their unconditional help and valuable suggestions offered during my research.
I thankfully remember the members of the Microbial Technology Lab, Manju miss, Sajan chettan, Ajith, Dolesettan, Karthi, Tina, Anu, Vinesha chechi and Honey for their support and affection. My heartfelt thanks to Tina (Tintu) for her efforts and patience to tackle many problems with the gene sequences.

I wish to extend my thanks to all my friends in the Neuroscience Lab especially Anju chechy, Shilpa, Rishti, Najil, Anita, Chinthu, Smijin, Jayanarayanan, Jes, Korah and Ajayan for their friendship, help and support.

I also extend my sincere thanks to Laxmi, Noble, Ritu, Sritha and Nandita in the Microbial Genetics Lab for their help and support. Special thanks to Laxmi for providing me valuable suggestions and support for my thesis writing. I also acknowledge the help and support offered by my friends Sowmya P. Mohandas and Jayanath during my research work. I also acknowledge the help and support offered by my friends Sowmya P. Mohandas and Jayanath during my research work. I also acknowledge the help and support offered by my friends Sowmya P. Mohandas and Jayanath during my research work.

I extend my appreciation to my husband’s friends especially Venu sir, Smitha, Jeena, Manoj, Rahul and Praveen for the help they offered during my sample collection. I would also like to thank all of my friends who supported me in writing, and incented me to strive towards my goal.

A special thanks to my family. Words cannot express how grateful I am to my father, mother, sister (Simi), mother-in-law, father-in-law, brother in-law (Vishu) for all of the sacrifices that they have made on my behalf. Your prayers for me were what sustained me thus far. Special thanks to Vishu for being my Vasu’s guardian in my absence.

At the end I would like to express appreciation to my beloved husband Vijeesh who spent sleepless nights and was always my support in the moments when there was no one to answer my queries. His love and encouragement give strength to me. There are no words to express my love and gratitude towards him. My sweetheart, Vasu, who cooperated extremely during this period. He adjusted a lot with my busy lab works. Words could not extend my deep sense of love and thanks to him….

There are innumerable others who I may have unknowingly not mentioned, I sincerely thank all of them for their help.

Soumya P.S.
