Acknowledgements

The real spirit of achieving a goal is through the way of excellence and discipline. I would have never succeeded in completing my research work without the cooperation, encouragement and help provided to me by various peoples. I know and feel in the deepest parts of my heart that I would have never completed this long and adventurous journey without continuous support of these people. Here, I would like to record my thanks to these people whose help have brought me to the end of this invaluable journey and play vital role directly and indirectly in this knowledge gaining process.

First and foremost, with deep sense of gratitude I express my sincere thanks to my esteemed and worthy supervisors Prof. Surya Kant Tripathi Department of Physics, Panjab University Chandigarh and Dr. Samriti Khosla PG Department of Physics, JCDAAV College Dasuya, Hoshiarpur, Punjab for leading me into the exciting electroactive polymer field, for encouraging me to be creative and think deeper, and advising me to try different ideas. Their softness and humor along with the excellent guidance in research not only made me learn many techniques and understanding in research but also, I enjoyed the work in the Laboratory. In this Ph.D. tenure, their meticulous attention towards my proceeding, devoted time and different ideas has enabled me to make this research work to success. I have learned a lot for their invaluable guidance from his astounding knowledge in Physics and Polymer Science.

I am thankful to Prof. Devinder Mehta, Prof. V.P. Singh, Prof. Manjit Kaur and Prof. C.S. Aulakh, present and erstwhile Chairpersons, Department of Physics, Panjab University Chandigarh for providing nice environment (along with the departmental facilities) for completion of my research.

I shall be failing in my duties if I do not express my deep sense of gratitude towards Principal and Department of Physics, JCDAAV College, Dasuya for their help support and constant inspiration. I also extend my special gratitude to Dr. Anil Kumar, Rajesh Kumar Sharma (JCDAAV College Dasuya) and Dr. Nitin Sood (Punjabi University Patiala) for their constructive suggestions at different stages of this work. My greatest thanks are to all who wished me success.
I thank to my seniors, colleagues and friends Arti Sharma, Pooja, Mamta Rani, Jagdish, Dr. Mamta Sharma, Dr. Rakesh Thakur, Dr. Gurjeet Singh, Dr. Surinder Kumar and Santosh Kumar Mani (Department of Physics, Bombay University). I am thankful to them for their help. I also appreciate the assistance of Jagdish in experimental work.

I acknowledged support from UGC, without their financial support doing this wonderful research work might have not been possible.

Finally, the meaning of my life is incomplete without paying regards to my parents. I am unable to express my words to thank my father and mother whose constant inspiration, patience, blessing, love and affection made this work possible. Also, I am greatly indebted to my brother, sisters, father in law, mother in law, sister in law and brother in law for their love, moral support and motivation that they always give me throughout the years of knowledge gaining process. I lived far from them; and so I apologize for not taking care of them as much as I should have.

A special thanks with lot of love to my beloved wife Sunita and daughter Saryu for enduring so patiently the division of my attention during this research.

Above all, I owe my reverence to ‘Almighty’ for his kindness who blessed me at finish of whole work.

Date: (Suman Lal)
