LIST OF TABLES

Table 1.1. Summary of Immunosuppressant Drugs .......... Error! Bookmark not defined.
Table 1.2. Studies Compare Different Drugs/Drug Regimens and its Outcome ..................................... Error! Bookmark not defined.
Table 1.3. Studies on Different Drug Regimen and Incidence of NODAT Error! Bookmark not defined.
Table 1.4. Studies on Effect of Age on Different Parameter ..Error! Bookmark not defined.
Table 1.5. Studies on Usage of Induction Agents .......... Error! Bookmark not defined.
Table 4.1. Demographic and Baseline Characteristic of Recipients .......... Error! Bookmark not defined.
Table 4.2. Demographic and Baseline Characteristic of Donor ............. Error! Bookmark not defined.
Table 4.3. Graft Lose in Different Age Group Recipients Error! Bookmark not defined.
Table 4.4. One Year Mean Creatinine Level > 1.5 mg/dL in Different Age Group Recipients ................................. Error! Bookmark not defined.
Table 4.5. Rejection in Different Age Group Recipients . Error! Bookmark not defined.
Table 4.6. Hypertension in Different Age Group Recipients ..Error! Bookmark not defined.
Table 4.7. Effect of CNIs on Blood Parameter ..Error! Bookmark not defined.
Table 4.8. Effect of Antiproliferative Agents on Blood Parameter .......... Error! Bookmark not defined.
Table 4.9. Effect of Maintenance Regimens on Blood Parameter .......... Error! Bookmark not defined.
Table 4.10. Effect of Various Parameters on Rejection Episode

Table 4.11. Usage of Antibodies in Different Age Group Recipients

Table 4.12. Usage of Different Antibodies in Different HLA Mismatch Recipients

Table 4.13. Usage of Antibodies in Recipient’s Relation with Donor

Table 4.14. Usage of Different Antibodies in Male and Female

Table 4.15. Usage of Different Antibodies in Different Type of Donor Receive Recipients

Table 4.16. Usage of Antibodies in Recipients with Different Dialysis Period

Table 4.17. Usage of Antibodies in Different Treatment Group

Table 4.18. Effect of Antibody Usage on Different Parameters

Table 4.19. Rejection Episode in Different Antibodies Treated Recipients

Table 4.20. Percentage of Antiproliferative Agent Treated Patients Switch

Table 4.21. Percentage of Calcineurin Inhibitor Treated Patients Switch

Table 4.22. Demographic and Baseline Characteristic of Recipients

Table 4.23. Demographic and Baseline Characteristic of Donor
Table 4.24. Effect of Pre-Transplant Infection on NODAT 

Table 4.25. Effect of Different Inducing Agent on NODAT 

Table 4.26. Influence of NODAT on Infection 

Table 4.27. Influence of NODAT on Patient Survival and Graft Survival 

Table 4.28. Infection in Renal Transplant Patients 

Table 4.29. Infection Episode in With and Without Antibody-Treated Patients 

Table 4.30. Infection Episode in Different Antibody-Treated Patients 

Table 4.31. Infection in CNIs Agent Treated Recipients 

Table 4.32. Infection in Antiproliferative Agents Treated Recipients 

Table 4.33. Infection in Various Maintenance Regimen Treated Recipients 

Table 4.34. Prevalence Rate of Infection in Various Groups 

Table 4.35. Timing of Infection 

Table 4.36. Influence of Infection of Various Parameters 

Table 4.37. Urinary Tract Infection in Different Group 

Table 4.38. Cytomegalo Virus Infection in Different Group
Table 4.39. Upper Respiratory Tract Infection in Different Group

Table 4.40. Infection after Renal Transplant

Table 4.41. Prevalence Rate of Infectious Species

Table 4.42. Prevalence Rate of Infection in Various Groups

Table 4.43. Timing of Infection

Table 4.44. Prevalence Rate of Different Infection in Different Groups

Table 4.45. Prevalence Rate of Infectious Agent in Different Groups

Table 4.46. Influence of Infection on Different Parameter

Table 4.47. Prevalence Rate of Infectious Agent in UTI

Table 4.48. Prevalence Rate of UTI in Different Groups

Table 4.49. Prevalence Rate of CMV Infection in Different Groups

Table 4.50. Prevalence Rate of URTI in Different Groups

Table 5.1. Effect of Drugs/Regimens on Patient Survival and Graft Survival in Various Studies
