I am deeply indebted to Prof. Sarada Subrahmanyan for the valuable encouragement and guidance given at every stage throughout the course of the investigation. My thanks are to Prof. V.S. Venkatasubbu for rendering all help in the preparation and interpretation of the results and to Prof. M. Subramaniam for his help in research. I also wish to thank Dr. Aswathaman, Dean of Stanley Medical College for permitting me to carry these investigations in the Department of Physiology, Stanley Medical College, Madras-1.

Grateful acknowledgments are also due to Prof. G.M. Yahya, M.B.B.S., M.Sc., Prof. S. Gopalakrishnan, M.B.B.S., M.R.C.P. (Edin.), Prof. C. Shyamala Bhaaskaran, M.D., Prof. Sarada Kathiresan, M.B.B.S., Ph.D., Prof. M.V. Rajendran, M.A., Ph.D., and Dr. M. Ganesa Pandian, M.D., A.B. (Cardiology), F.R.C.P. (C), Dr. M.K. Balasubramanian, M.Sc., Ph.D., Dr. R. Balasubramanian, M.Sc., Ph.D. (Botany), Dr. B. Vijayalakshmi, M.D., Selvi B. Indira, B.A., Thiru B. Srinivasan, B.Com., late Dr. G. Ranganathan, M.Sc., Ph.D.,
and to all other colleagues of mine and technical staff for their interest and their help in the preparation of this thesis.

I wish to express my regard to Prof. A. Venugopal, M.S., F.I.C.S., F.A.C.S., F.A.M.S., Director, Post Graduate Institute of Basic Medical Sciences, Taramani, Madras-42, who showed keen interest in my research work.

I take this opportunity to place on record my sincere gratitude to Dr. S. Gnanadesikan, Director of Medical Education, and Dr. K.V. Murthy, Secretary, Tamil Nadu State Research Committee, for the financial assistance given for the experimental work carried out in Stanley Medical College, Madras-1.
