ACKNOWLEDGMENTS

The author wishes to hereby express her most reverential gratitude to Dr. (Mrs.) Raisamal P. Devadas, M.A., M.Sc., Ph.D., (Ohio State), D.Sc. (Madras), Principal and Director, Sri Avinashilingam Home Science College (Autonomous) Coimbatore, for enthusing the investigator to take up this study on expectant mothers, and for her dynamic, valuable and meticulous guidance rendered most thoughtfully, spiced with motherly affection, making it possible for the investigator to deliver a full term, well nourished Ph.D. dissertation.

The author is highly indebted to Dr. Stevens, M.D., D.G.O., M.Ph., Dean, Coimbatore Medical College Hospital, Dr. P. Isaiah, M.D., M.R. COG., and Dean Dr. Kasavalu, M.D., Kuppaswamy Naidu memorial hospital for women and children, and Dr. Govindarajulu, M.B.B.S., Asst. Municipal Health Officer for giving necessary permission and assistance to the study in their hospitals and maternity centres.

The author is immensely grateful to the expectant and nursing mothers for participating in the study most enthusiastically and allowing their infants also to participate in this great effort.

She thanks the University Grants Commission and Director of Collegiate Education for making it possible for her to avail of the Faculty Improvement Program.
