4. OBJECTIVES OF THE STUDY

General objective:

To develop and implement the strategies, that helps in preventing or minimizing the ADRs to ART.

Specific objectives:

a. To identify the incidence of ADRs to ART
b. To assess the causality, predictability, preventability and severity of ADRs to ART
c. To determine pattern of system organ class affected by the reported ADRs to ART
d. To develop the strategies for preventing or minimizing the ADRs to ART
e. To evaluate the usefulness of the developed strategies
