ACKNOWLEDGMENTS

I am grateful to Dr Shrikant Paranjpe, my guide, who was a constant source of help and encouragement.

Many people helped me in my work. Amongst them I would specially like to mention the following.

Wg Cdr (Retd) Dr. M.S. Naravane for his support. I have taken a great deal of information from his published works, and which has been acknowledged at appropriate places. He explained to me the basic military terms and what was the strategic and tactical concepts and value of the forts.

I owe a great deal to my family. My mother, Mrs Stella D’Cunha and mother in law, Mrs Ruby Machado were very kind and considerate. I owe a special debt of gratitude to my father, Mr. Xavier D’Cunha, who constantly motivated me to complete higher studies. It was his dream that I should do doctoral research, a dream which I am happy I am fulfilling now. I, therefore, dedicate this thesis to him. Finally, my husband, Milton, did not put any impediments in my work- on the contrary, encouraged me to finish my research.
