Acknowledgement

It is an utmost pleasure to transcribe my deep sense of indebtedness and sincere appreciation to my respected mentor, Dr. Shital S. Panchal, Assistant Professor, Department of Pharmacology, Institute of Pharmacy, Nirma University for initiating and suggesting the theme of the work, her valuable guidance, supervision, creative suggestions and meticulous attention, sustained interest and everlasting support throughout the course of this work.

I express my profound gratitude to Prof. Gaurang B. Shah (Principal, K.B. Institute of Pharmaceutical Education and Research, Gandhinagar) and Dr. Shrikalp S. Deshpande (Professor and Head, Department of Pharmacology, K.B. Institute of Pharmaceutical Education and Research, Gandhinagar) as a panel of review committee set up at university for the regular assessment of the progress of my research work.

I express my sincere thanks to Prof. Manjunath D. Ghate, Director, Institute of Pharmacy, Nirma University, for providing the facilities required to complete the work and for his support, encouragement and precious words of wisdom.

I sincerely express my gratitude to my teachers Dr. Anuradha K. Gajjar, Ex. Professor, Department of Pharmaceutical Chemistry, Institute of Pharmacy, Dr. Vimal Kumar, Professor and Head, Department of Pharmacognosy, Institute of Pharmacy, Dr. Priti J. Mehta, Professor and Head, Department of Pharmaceutical Analysis, Institute of Pharmacy, Dr. Tejal A. Mehta, Professor and Head, Department of Pharmaceutics and Pharmaceutical technology, and Dr. Murali B, Associate Professor and Head, Department of Pharmacology, for their relentless support and encouragement throughout the course of my research work. I am equally thankful to all other faculty members of the Institute of Pharmacy for their timely assistance and cooperation.

I express my sincere gratitude to Dr. Lalitha Poluru, Mr. Sandeep Patel, and Mr. Virendra Goswami for helping me in the maximum utilization of the library. I wish to acknowledge the strong support, and sincere cooperation of all the non-teaching staffs of the Institute of Pharmacy, Nirma University, for their help as and when required.

I am extremely thankful to Torrent Research Centre, Ahmedabad, India and Biochem Pharmaceutical Industries, India for providing me with the timely gift samples of Glibenclamide and 5-FU respectively.

I owe my deep gratitude to the Sophisticated Analytical Instrumentation Facility (SAIF) at Panjab University, Chandigarh, for carrying out the NMR and Mass spectrometric analysis, Prime Path Solutions, Ahmedabad for rendering help during the histopathological studies, Dr. Vipul P. Patel, Asst. Professor and Head, Department of Biotechnology, Shree S.K. Patel College of Pharmaceutical Education & Research, Ganpat University for the in vitro cytotoxicity studies, and Mr. Alok Pandya, Research Scholar, Department of Chemistry, Gujarat University for the particle size analysis of my formulations.

I acknowledge with gratitude the financial assistance (INSPIRE Fellowship: JRF/SRF Professional) and contingency grant from the Department of Science and Technology (DST), Govt. of India for carrying out this entire work. I also gratefully acknowledge their support for providing me with the International Travel Grant for presenting a research paper at The International Conference & Exhibition on Cancer Science & Therapy, held in Las Vegas, USA.

I am especially grateful to Mr. Neeraj K. Sharma, not only for his priceless friendship and invaluable moral support, but also for extending immense technical help in performing the formulation experiments. I am thankful to Mr. Omkar D. Sherikar and Mr. Kuldip Barot for helping me carry out some indispensable analytical work with precision and accuracy.

I also warmly acknowledge my skilled colleagues in the field of Pharmacology: Nihar, Rajiv, Vinit, Surender, Ravi, Ujjval, Samir, Sameer, Vishal, and Devra for always being ready to help and being accessible for technical assistance.

Sneha, my soulmate, has been an immense source of relentless love and support. Not forgetting Ma and my dearest sister Titli, the other two most important people in my life, whose patience, understanding, unfailing support and encouragement even in the most desperate circumstances inspired me in every step of the way.

Finally, I would like to thank everybody who has been instrumental to the successful realization of this thesis, either directly or indirectly, and whose names I have unknowingly missed out in making this project a worthy endeavor.
