Fig.-1 Flow chart showing the types of occupational health hazards in teachers

Fig.2. Study area & selected schools

Fig.-3 Occupational health hazards of study subjects (teachers) based on gender

Fig.-4 Occupational health hazards of study subjects (teachers) based on age group

Fig.-5 Occupational health hazards of study subjects (teachers) based on years of service

Fig.-6 Occupational health hazards of study subjects (teachers) based on level of teaching

Fig.-7 Occupational health hazards of study subjects (teachers) based on smoking habit

Fig.-8 Trace elemental concentration of selected brands of chalk

Fig.-9 Trace elemental concentration of chalk dust collected from classrooms

Fig.-10 Pre and post spirometric analysis of male study subjects (teachers)

Fig.-11 Pre and post spirometric analysis of female study subjects (teachers)
List of Plates

Plate-1 Questionnaire clarification to teachers
Plate-2 Pellet for ED-XRF analysis
Plate-3 ED-XRF Measurement
Plate-4 Suspended dust collection in classrooms
Plate-5 Settled chalk dust collection using petriplates
Plate-6 -9 Scanning Electron Microscopy Images of Chalk dust collected on filter paper
Plate 10-13 Scanning Electron Microscopy Images of chalk dust collected on Petri plates
Plate-14 Chalk holders and chalk piece with butter papers
Plate -15 Helios 702 Spirometer
Plate-16 Spirometric analysis of teachers
