ACKNOWLEDGEMENTS

An acknowledgment is always difficult to be expressed in words. It’s a feeling of immense gratitude to one’s pillars of strength that stood through the thick and thin to share the pain and make the dreams a reality.

My journey to research began with the encouraging words of my boss, guide and supervisor Prof. Y.AVASN Maruthi, Head, Department of Environmental studies, Institute of Science, GITAM University who made me learn so many crucial things of life. She taught all essentials from being a good researcher till protecting our existence in academic and scientific community. She patiently bore all my emotions and gave me a chance at every possible situation to learn, learn and learn more, pursue things in positive manner which show patience, determination and admire work. She says “your work is presentation of your capabilities”. She protected me from so many awful situations which might have lead to distraction of my mental stability. She says ‘Ph.D is not just a research, It’s a package of life’ in all situations which molded me into a good researcher, teacher, investigator, good and lovable member of the academic community and all together as a good man.

I wish to thank Prof.N.Srinivas, former Head of the department and Prof.Ch.Ramakrishna, Director-UGC affairs & Research Activities & Chairman (Board of Studies), GITAM University for their constant encouragement.
I take privilege in extending my deep sense of gratitude to Prof. K.Aruna Lakshmi, Principal, GITAM Institute of Science, Prof.N.Lakshmana Das, Advisor in Science and Former Principal, GITAM Institute of Science, Prof.T.Shivaji Rao, Hon’ble Director, Centre for Environment, GITAM Institute of Science and to Dr.V.Saritha, Assistant Professor & Lab In-charge, Dr.K.Suresh Kumar, Assistant Professor and Ms.B.Padmavathi, Assistant Professor, Department of Environmental Studies, GITAM University for all the possible help they rendered during the course of my practical work. I would like to thank Mr.Venkat Rao, Ms.Gayatri and Mr.Satish Kumar for helping me to complete the practical work.

I would like to thank my scholar friends Dr.V.Divya Rao, Mr.K.Jagadeshwara Rao, Mr.A.Sunil Kumar, Ms.Bhavya Kavitha, Mr.Y.Satyanarayana, Mr.Anand Kumar for their kind help and suggestions in my making my entire thesis work possible.

I would like to thank Dr.Kaizar Hossain, my senior and mentor for consistent guidance and Kind help in making my entire thesis work possible.

I would like to thank University Grants Commission (UGC) New Delhi for providing the financial support to carry out my research work.

I also take privilege in extending my deep sense of gratitude to Dr.M.Sudarshan, Scientist-F, Department of trace element research, UGC-DAE Consortium Centre Kolkata for providing excellent laboratory facilities and constant guidance and support to carry out my research work successfully.
I am nothing without my parents S.DhanaRaju and S.Neelaveni, my loving brother and sister S.Lakshmankumar and S.Sandhya Rani, and my friends without whom I could have completely lost somewhere and could not come far successfully not only in the time of Ph.D, but my entire life. And I am grateful to all my friends and companions who played their roles in energizing me and keeping me confident and whose names I have not included here for limitation of space.

(S.RAM PRASAD)
